Selecting a Breed

Whether you are just getting started, or are an experienced enthusiast, selecting the right breed is the first step toward raising a successful flock.

To help you select the breed(s) that are right for you, we have added helpful icons by each of our breeds. Now you can easily shop by egg color, hardiness, utility and more. See below for a key to the meaning for each icon:

Have questions about a specific breed, or need help placing your order? Call our Customer Service department at 800.456.3280 or look for the Live Chat on our website.

AMERAUCANA

(SHIPPED FEBRUARY - OCTOBER)

The Ameraucana is a one of our most popular breeds, known for their beautiful blue eggs. The breed was originally developed in the 1970s, derived from Araucanas. Ameraucanas were bred to retain the blue-egg laying gene but eliminate some of the issues associated with the Araucana breed. We have been breeding Ameraucanas since the 1980s — even before they were admitted into the Standard of Perfection by the American Poultry Association in 1984. These extremely hardy birds come in a variety of colors and color patterns, making a beautiful laying flock. Our Ameraucanas are sold as a mixed flock only, and specific feather coloring is not available. Our birds have muffs, but not all will have beards. Hens will breed true for egg color.

ANCONA

(SHIPPED FEBRUARY - FIRST WEEK IN JULY)

These quick, alert and active white egg layers are a lustrous black with white tips on every few feathers. Their dark, mottled feather pattern makes them a good choice where hawks, owls, and other predators are a problem. Adult birds are fairly small — about the same size but a little heavier than a Leghorn. Anconas are excellent layers, generally non-setters, heat tolerant, and have a good disposition.

BLUE ANDALUSIAN

(SHIPPED FEBRUARY - OCTOBER)

This beautiful breed originated in Andalusia, a province of Spain, but have long been known in England and the United States. They are magnificent breed for exhibition with their graceful. stately carriage and delicately blue-laced plumage. The ideal feather color is a beautiful slate blue with narrow lacing in darker blue and leaden blue shanks and toes. Andalusian hens are fine layers of white, or slightly tinted, eggs with very little tendency towards broodiness.

Photos courtesy of Vicki Collins, Ashley Stratton, and Jack Pollner.

THE COLOR BLUE: The unique genetic feature of this breed is the constant recurrence in the offspring of not only all blue chicks, but also the black, white, and black/white chicks. These colors were used in matings over many generatio to produce these blue birds. All of Andalusian chicks carry the blue genes, and when mated black on white, or with other blues, in turn produces many blue offspring. Only blue males of the finest color are used in our breeding flock. Approximately 50% of the baby chicks will be all blue. The other 50% will be black, white, or black/white combination

BLACK AUSTRALORP

(SHIPPED FEBRUARY - OCTOBER)

The Australorp originated in Australia and was introduced in the U.S. in the 1920's. This popular heavy breed is one of the best light brown egg laying breeds. They are quiet, very gentle, and bear confinement well. The Black Australorp is a handsome breed with glossy black feathers and a greenish-purple sheen and larger than average bright red combs. We have handled this breed for years and think it is one of the best of the heavy breeds.

Photos courtesy of Lena Shell, Kirsi Ingram & Marti Bailey.

Hatcheru Bielefelder Favorite (SHIPPED FEBRUARY - OCTOBER) This is our second year offering this relatively new breed. These gentle giants are beautiful and robust. Their large, round bodies put Orpingtons and other heavy breeds to shame. Males have barred feathering and are easily 10-12 lbs. Hens aren't much smaller, and lay a beautiful, darker colored, brown egg. This easy-to-raise breed is good for both meat and eggs. Brahmas

(SHIPPED FEBRUARY - FIRST WEEK OF JULY)

The Brahma is a very old Asiatic, feather-footed breed brought to New England by Chinese clipper ships in the 1800s. Brahmas are exceptionally quiet, gentle, and easy to handle. Their small pea comb, immense size, and heavy feathering make them almost immune to cold weather. Hens are good brown egg layers especially in winter — are likely to set, and make good mothers to their young.

BUFF BRAHMA

The Buff Brahma was developed much later than the other varieties, and they are still very rare. Buff Brahmas are large, golden buff colored fowl with black hackle feathers edged in buff, feathered legs and feet, and a black tail. The buff and black combination and great size make this variety a truly beautiful and regal bird.

Photos courtesy of Amanda Kitzmiller, Jamie Lynn Fletcher, Corey Worley and Andrea Jacobs.

BUTTERCUP

(SHIPPED FEBRUARY - FIRST WEEK OF JULY)

The Sicilian Buttercup is a Mediterranean breed that was imported from Italy over a century ago. The breed gets its name from its golden color and unusual cup-shaped comb — a crown with a complete circle of medium-sized points. Males are a rich, brilliant orange-red with some black spangles on their body, cape feathers at the base of the hackle, and a lustrous, greenish black tail. Females are a buff color with all feathers on the body marked by parallel rows of black elongated spangles, giving the hen a beautifully spotted appearance.

GOLDEN CAMPINE

(SHIPPED FEBRUARY - FIRST WEEK OF JULY)

The Campine is a very old and rare breed which originated in Belgium, Golden Campines feature a combination of Justrous

black and golden bay in a distinctive barred feather pattern. This breed is rather small in size — topping out at just four to six pounds — are very active, good foragers, and are heat tolerant. Hens lay medium-sized white eggs and are non-setters. Golden Campine baby chicks are the most highly colored chicks we hatch, with a bright zig-zag pattern of black, brown, and white stripes.

Cochins (SHIPPED FEBRUARY – FIRST WEEK OF JULY)

The Cochin breed is one our family favorites - especially the Buff Cochin. Brought from China in the 1800s by clipper ships, these massive Asiatic fowl are covered with an extraordinary abundance of soft, fluffy feathers from head to toe. They are good layers, extremely likely to set, and have an excellent disposition.

Cornish

This handsome breed originated in Cornwall, England. Cornish are close-feathered with little to no down and tight pea combs. Hens are good layers of firm-shelled brown eggs. Their game-like shape makes them a good breed to raise for meat production, however they are slower to mature than our other Cornish breeds — see page 45 for Cornish Roasters and other breeds for meat production.

DARK CORNISH

(SHIPPED FEBRUARY - OCTOBER)

The Dark Cornish are hardy, excellent foragers and will rustle for themselves under rough conditions. Dark Cornish hens make good setters and mothers. Baby chicks can vary in color from a light reddish buff to a darker reddish brown with dark markings on the head and sometimes on the outer edge of the back. They are usually kept for eggs and show versus for meat production like the Cornish Roasters or Cornish Cross. Photo (right) courtesy of Amanda Kitzmiller.

WHITE LACED RED CORNISH

(SHIPPED FEBRUARY - FIRST WEEK OF JULY)

The White Laced Red Cornish is a newer variety, produced in America in the late 1800s. These beautiful birds have rich dark red feathers laced with white, and a square, blocky Cornish physique. Hens are fair layers of brown eggs. Chicks are varying shades of reddish buff, and are fairly small. This rare breed matures more slowly than other breeds, and are good foragers.

CREAM LEGBAR

(SHIPPED FEBRUARY - OCTOBER)

The Cream Legbar is one of the most popular breeds in the world but still very rare and just gaining traction in the United States. Female Cream Legbars sport a small crest, are silver grey with a salmon colored breast, and lay beautiful blue eggs. Males are cream colored with dark grey barring and long saddle and hackle feathers. This is a beautiful and very productive bird. They are good in a free range setting and are very alert.

CREVECOEUR •

(SHIPPED FEBRUARY - OCTOBER)

This very old breed is named after the village of Crèvecœur en Auge in Normandy, France. "Crève Cœur" translates literally as "broken heart." Local history cites the origin of the name stems from the land in this region being less fertile than was hoped by farmers moving into the area, and thus breaking the hearts of the peasants. The Crevecoeur is similar in size to a Houdan, but all black and with only four toes. The Crevecoeur is very rare and considered critical on the ALBC Priority. Our team has been working in conjunction with The Livestock Conservancy and other experts to help to revive this beautiful, unique and valuable breed.

DELAWARE (SHIPPED FEBRUARY – OCTOBER)

The Delaware is named for the state where it originated. This breed was developed by crossing Plymouth Barred Rock males with New Hampshire Red females. The result was an almost all white, heavy breed with slight barring on the hackle and tail. These true dualpurpose birds are excellent brown egg layers as well as fine quality for meat production. The Delaware is a nice, quiet bird when well tended to, and a hardy breed that is excellent in colder climates.

See our NEW Delaware Enhanced Heritage on p. 47

DOMINIQUE

(SHIPPED FEBRUARY – FIRST WEEK OF JULY)

The Dominique is distinctly American, dating back to the early days in New England. Pioneers brought these birds west with them when, at that time, any black and white barred feathered chicken was referred to as a 'Dominiker.' Today they are fairly rare. The Dominique has a rose comb, medium-sized body, prominent tail, and black and white barred plumage. Hens are good layers of large brown eggs but are non-setters. These birds do well in a free range setting and have an excellent disposition.

NEW LOWER MINIMUMS: Order As Few As 6 Chicks! See Page 2 for Details.

SILVER GRAY DORKING

(SHIPPED FEBRUARY - FIRST WEEK OF JULY)

The Dorking is one of the oldest breeds of domesticated poultry, brought to Great Britain by the Romans with Julius Caesar. This unique, very rare breed has a long body on short legs, and a fifth toe. They are good in a free range setting. Silver Gray Dorking males are a combination of silverywhite and black. Females are an ashy gray, lay a medium-sized cream egg and are non-setters.

SALMON FAVEROLLE

(SHIPPED FEBRUARY – FIRST WEEK OF JULY)

Originally bred as a utility fowl in France for winter eggs, the Salmon Faverolle is now very rare and is raised mostly for exhibition and novelty. These birds are good-sized with a beard, muff, feathered shanks, and a fifth toe. Males are a mix of cream, reddish-brown and black coloring. Females are a creamy-white and salmon brown, lay a medium-sized cream egg, and are good mothers. Faverolles do not do well in a free range setting, but are good in colder weather and have a nice disposition. Photo courtesy of Teri Rose annd Steve Houston.

Hamburgs

The Hamburg is a very old, ornamental breed. These are small, alert birds that love foraging and thrive in a free range setting. They are such prolific white egg lavers that they have been referred to as the "Dutch Everyday Layer." Hamburgs have a rose comb, distinct hackle feathers, and a spangled pattern on their bodies.

MOTTLED HOUDAN

(SHIPPED FEBRUARY - FIRST WEEK OF JULY)

The Houdan originated near the village of Houdan in France and is a rare breed - listed as threatened by the Livestock Conservancy. The locale — and their mottled black feathers tipped with V-shaped white spots — give them their name. The breed is known for its flowing crest, V-shaped comb, muff of feathers at the throat, and the 5th toe. Houdans are decent white egg layers, but are non-setters. These crested birds are larger than a standard Polish, are excellent in warm climates, and have a good disposition.

NEW LOWER MINIMUMS: Order As Few As 6 Chicks! See Page 2 for Details.

Jersey Giants

The Jersey Giant originated in New Jersey in the late 1800s, and was developed as a large, roasting bird. As their name implies, this is an immense, heavy, dual-purpose breed used for both egg and meat production. Hens are decent layers of large, brown eggs and are persistent through colder weather.

BLACK GIANT (SHIPPED FEBRUARY – OCTOBER)

The Black Giant is the original Jersey Giant, developed in New Jersey in the late 19th century by crossing several of the large, dark Asiatic breeds. This handsome breed has black feathers with a green sheen, dark brown eyes, black shanks and toes, and a straight red comb. The Black Giant has a good disposition and is a good breed for farms and free range settings.

WHITE GIANT

(SHIPPED FEBRUARY - FIRST WEEK IN JULY)

The White Jersey Giant is one of the newer purebred breeds. These heavy birds are primarily raised for meat, but are slower to mature than Rocks, Reds, and other common heavy breeds — however, they will eventually surpass them in size and weight. Mature hens are very large and good brown egg layers. Baby chicks are varying shades of smoky gray, varying from almost black to very light.

LAKENVELDER

(SHIPPED FEBRUARY - FIRST WEEK OF JULY)

The word Lakenvelder in Dutch means "a shadow on a sheet" a perfect name for this small white breed which is draped in black on their neck, wings and tail. Lakenvelders are guite small when mature, weighing just four to five pounds. They are very guick and active, and will forage widely if allowed to run. Hens lay white eggs and are non-setters. Baby chicks are mostly creamy-white with a half-collar of black on their neck, and sprinkling of black on their head and back. Photo courtesy of Leigh Ann Shiflett and Will Riggs.

Langshans

(SHIPPED FEBRUARY - FIRST WEEK OF JULY)

The Langshan is a old heritage breed that originated in China. This gentle breed has an excellent disposition, and is smaller and more active than other Asiatic breeds. They have a pronounced upright appearance, and are not as heavily feathered down the legs and toes as Cochins. Hens are good layers of medium brown eggs, and are very likely to set.

BLACK LANGSHAN

Black Langshans are also from the Asiatic Class of poultry. These large stunning birds are pure glossy black with bright red combs, dark eyes, and black shanks. Chicks are black with some white on the underside.

Photo courtesy of Rebecca Peshek.

Leghorns

The Leghorn is one of the most productive breeds. This breed of prolific white egg layers comes in a wide range of colors — from the hybrid White Leghorn, to the colorful Single Comb and Rose Comb Brown Leghorns, to the stunning Silver Leghorn. Leghorns are excellent layers, are non-setters, and active, hardy and productive birds. Our White Leghorns are our most consistent and cost-effective white egg laying breed.

PEARL WHITE LEGHORN 🏵

(SHIPPED FEBRUARY - OCTOBER)

Over 45 years of scientific breeding research have gone into the development of our Pearl White Leghorns. This is, by far, is our best white egg laying breed. Pearl White Leghorn pullets weigh about 4 lbs. at maturity, start laying at 4 1/2 to 5 months, and will continue laying 10 to 12 weeks longer than most good layers. Livability and resistance to disease are very high, and the feed-to-egg conversion ratio is excellent, holding down the cost of egg production. Our Pearl White Leghorn hens lay the highest grade, uniform shape and size, good shell, and highest interior quality eggs with the least feed in smallest amount of space.

ROSE COMB BROWN LEGHORN

(SHIPPED FEBRUARY - FIRST WEEK IN JULY)

The Rose Comb Brown Leghorns have exactly the same feather color as the Single Comb Brown Leghorns. The only difference is that

instead of the straight blade single combs, they have rose combs which are low, solid, thick, and covered with small rounded points. One advantage of the rose combs is in cold climates they are less likely to suffer frostbite. The dark color and quick actions of both Brown Leghorn varieties make this a good free range breed where there is a risk of predators. Photos courtesy of Kathy Romeo & Anna Chaffin.

Marans

The Marans originated in the town of Marans, France. They are a dual-purpose fowl known for their extremely dark, chocolate colored eggs and meat quality. Marans are a fast growing breed and extremely hardy, thriving in almost all climates. They are generally docile, have a quiet nature, are pretty active and like to free range.

CUCKOO MARANS

(SHIPPED FEBRUARY - OCTOBER)

The Cuckoo a variety of Marans, is a popular breed known for their large, dark, chocolate-colored brown eggs. The Cuckoo Marans resembles the Barred Rock with their black feathers crossed with irregular dark and light slate-colored bars. Unlike the French Black Copper Marans (below) which is feather-legged, the Cuckoo Marans is clean legged. This is a good hardy breed, with excellent heat tolerance, and is ideal in a free range setting.

Minorcas (SHIPPED FEBRUARY – FIRST WEEK OF JULY)

Minorcas are the largest, and heaviest, of the Mediterranean breeds. They have long and muscular bodies, large combs, long wattles, large white earlobes, and compact feathering. Minorca hens are excellent layers and are non-setters. Due to their tight feathering and large combs, they are more prone to frostbite.

BUFF MINORCA

The Buff Minorca has a long, strong body and firm, muscular legs. Large red combs are very typical, and the hens' combs will fall to one side almost covering one eye. Hens lay good-sized, white eggs and are non-setters. Coloring is a rich golden buff color.

BLACK MINORCA

This is one of our favorite varieties — and one of the first breeds raised by our founder, Murray McMurray. In his first poultry exhibition at the 1917 lowa State Fair, Murray won a blue ribbon for his prize Black Minorca rooster, and the rest is history. The Minorcas are the largest of the Mediterranean breeds and the Black variety is possibly the finest example of their class. They have a good disposition and are said to have feisty personalities. Hens lay large white eggs, are non-setters, and are excellent in a free range setting and warmer climates.

MODERN BB RED GAME

(SHIPPED FEBRUARY – FIRST WEEK OF JULY)

Modern Games were developed from the Old English Game fowl — one of the oldest known breeds. Initially bred for exhibition in England, these small birds have an extremely high stature, and peculiar style and carriage. This rare breed is listed as Critical by the Livestock Conservancy. Hens lay a medium-sized white egg and are non-setters. Modern Games are heat tolerant and like to free range.

NEW HAMPSHIRE RED

(SHIPPED FEBRUARY - OCTOBER)

This breed was developed in the state of New Hampshire from Rhode Island Reds. Through generations of selective breeding, the New Hampshire Red is a hardy breed that matures early, is rapidly fullfeathering, and hens are excellent large, brown egg layers. This dual-purpose breed is an excellent choice for those wanting to free range poultry for meat production. Photos courtesy of Joel McCreery & Christie Whitcomb

Orpingtons

Orpingtons were developed in England in the late 1800s, and quickly became popular when they were introduced in the United States. They come in a variety of colors, but the golden 'Buff' is the most common — and one of our best selling breeds. Orpingtons are one of the best all-around breeds. They are a good dual-purpose breed for homesteaders and farmers, and superior brown egg layers with a quiet, gentle disposition that thrive in an urban or backyard setting.

BUFF ORPINGTON ®

(SHIPPED FEBRUARY - OCTOBER)

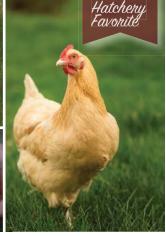

Buff Orpingtons have been one of our most popular breeds for years. These large, stately chickens have glistening, golden-buff colored feathers and a wonderfully quiet disposition. Their loose, fluffy feathers keep them warm in cold climates. Hens lay large brown eggs — even right through colder weather. They also make excellent setters and mothers to their baby chicks. Broody Buff Orpington hens are often willing to hatch others' eggs or accept other baby chicks as their own. This gentle breed is perfect for families wanting backyard chickens and fresh eggs in an urban setting.

PHOENIX

(SHIPPED FEBRUARY - FIRST WEEK OF JULY)

The Phoenix was developed from the Onagadori

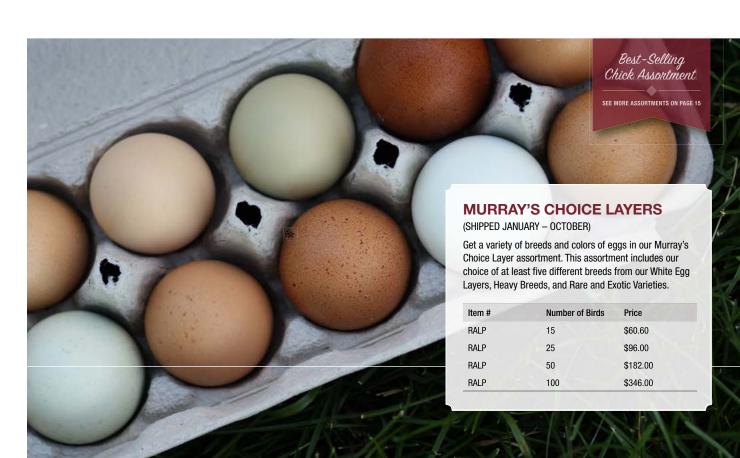

— long-tailed Japanese birds that were kept in Imperial gardens. The Silver Phoenix is a small, ornamental breed that has become increasingly popular at poultry shows. The beak can be a shade of tan, while the eyes are usually a reddish bay color. Mature males are white with black and iridescent blue and silver shades giving them a striking appearance. They have gorgeous plumage, are gentle birds, very heat tolerant, and only need a small amount of feed and space to maintain them. Hens lay small white eggs and are non-setters.

WHITE ORPINGTON

(SHIPPED FEBRUARY - FIRST WEEK IN JULY)

The White Orpington is a big, soft, fluffy docile and gentle breed. These pure white birds are similar to the Buff version with heavy frames and pinkish white skin. Hens are especially sweet, are good winter brown egg layers, and also make excellent setters and mothers to their baby chicks.

Photos courtesy of Megan Kyle & Anna Chaffin — @ @koalabear41616

Plymouth Rocks

The Plymouth Rock is a truly American breed, developed as a reliable dual-purpose fowl for egg and meat production. Often the Barred variety is referred to as a Plymouth Rock, but the title correctly belongs to the entire breed including the Barred, Buff, Partridge, Silver Penciled and White varieties. Plymouth Rocks are a sturdy, heavy breed that withstands colder climates well.

BARRED ROCK

(SHIPPED FEBRUARY - OCTOBER)

The Barred Plymouth Rock is one of the all-time, popular Heritage breeds in this country. They have narrow, clean barring and long, broad, deep bodies. They can't be beat for hardy, dual-purpose, steady, and reliable chickens. Hens are prolific brown egg layers, and are not discouraged by cold weather. For meat production, they are a beautiful, solid, plump, heavy roasting fowl. Our strain has the classic narrow, clean, barring on its feathering . They are long, broad, and deep-bodied and are bred for strength and vitality. Baby chicks are dark gray to black, with some white patches on their head and body.

WHITE ROCK (SHIPPED FEBRUARY – OCTOBER)

Female White Rocks are outstanding egg layers year-round — especially during cold winter months when lighter breeds slack off. White Rocks are similar to the Barred Rocks, except they are pure white. Photo courtesy of Grace McCain and Carly Norris.

There is a magic in baby chicks that sparks joy and happiness in those around them. For some it could be their tiny size, big eyes, and soft down, and for others it's their sweet chirping sounds.

For 103 years we've been hatching these little miracles and shipping them out to families across the United States and beyond — even as far as Japan. And each year, we are blessed to be able to feature photos from our customer families in our catalog showing where our chicks have landed.

Whether you're a long-time customer, or just ordering your first box of chicks, we thank you for choosing McMurray Hatchery and shared your stories and images with us.

BREEDS [A-Z]

Polish (SHIPPED FEBRUARY – FIRST WEEK OF JULY)

Polish is a European breed known for their distinctive crests, or "top hats." These crests can limit their vision, and although they are normally gentle and docile, they can be timid and easily startled. Hens are good, productive white egg layers, rarely go broody, and are non-setters.

| Class: Continental | Mature Weight (LB): Male 6.0 / Female 4.5 |
|----------------------------------|---|
| ALBC Priority: Watch | Egg Production: Good |
| Comb Type: V | |
| Feet & Legs: Clean / Slate, Blue | |

BUFF LACED POLISH

These rare birds are a rich golden buff with each feather neatly laced in creamy white, and slate-blue shanks and toes. Their flowing crests and sprightly carriage make them one of the most prized varieties. They are easy to handle, white egg layers, and are non-setters. There are two varieties: bearded and non-bearded, but we do not list these separately. Orders will usually include some of both. Baby chicks are creamy buff with a dark tan mark over each eye.

Photos courtesy of Erin Ducksworth and Carly Norris.

RHODE ISLAND RED •

(SHIPPED FEBRUARY - OCTOBER)

This is one of the most famous and all time popular breeds of truly American chickens. Developed in the early part of the last century in the state of the same name, they have maintained their reputation as a dual purpose fowl through the years. Outstanding for production qualities, they top the charts for brown egg layers time after time. No other heavy breed lays more or better eggs than the Rhode Island Reds. Our production strain keeps up the fine reputation of this old favorite. Baby chicks are a rusty red color and the mature birds are a variety of mahogany red. Photos courtesy of Aimee Whelan and Christi Lolley.

NEW Sapphire Hybrid Breeds

SEE ALL NEW BREEDS, PG. 2

Sex-Link Chicks

(SHIPPED FEBRUARY - OCTOBER)

These brown egg layers meet our strict specifications — easy to raise, lay large brown eggs, and have a good feed-conversion ratio. A "Sex-Link" is a chick that can be sexed by its color at the time of hatch. They do not retain these same characteristics in future generations.

BLACK STAR

The Black Star is an excellent brown egg laying breed. They are great in colder climates, and have an excellent

disposition. Females are black with gold hackle and breast feathers, and are equ-laving machines. Males are black with white barring. Baby chicks of both sexes hatch out black, but the males have a white dot on their heads.

RED STAR •

This is one of our favorite breeds — we have them in our own flock at home, and our kids love gathering their eggs — and they are one of our best sellers. Mature hens have reddish brown feathers with flecks of white throughout. At approximately 22 weeks these hens will start to lay, and will keep on laying eggs right through hot or cold weather. No other breed lays as many consistent, large brown eggs as the Red Star. Males are all white with nice yellow skin and often raised for meat. They are great in colder climates, and have an excellent disposition. This breed is sure to be a favorite.

WHITE FACED **BLACK SPANISH**

(SHIPPED FEBRUARY - FIRST WEEK OF JULY)

The White Faced Black Spanish is a graceful and stylish breed. They are similar in size to the Minorca, but this striking breed is a rich, glossy black bird contrasted with a large red comb, and a long pendulous white face and ear lobes. Hens lay white eggs, and are non-setters. They are thought to be the oldest breed in the Mediterranean class of fowl. Please note, the white face of our Spanish is very slow to develop. Please allow the birds to go through one molt if you plan on showing them.

SULTAN (SHIPPED FEBRUARY – FIRST WEEK IN JULY)

Sultans are an old, ornamental breed which originated in Southeastern Europe where they were once favored by the rulers of Turkey. Sultans came from Istanbul to England in the 1850s. This extremely rare breed has a full list of distinguishing characteristics including a crest, muff, beard, vulture hocks, fully feathered shanks and feet, and a fifth toe. These all white birds have a dramatic presence with their pure white feathering and contrasting bright red V-comb and waddles. Males sport a larger crest and tail, and females have a dainty rounded crest and shorter tails. Sultans are docile birds and have a sweet disposition. Hens are white egg layers and are non-setters.

SUMATRA

(SHIPPED FEBRUARY – FIRST WEEK OF JULY)

This breed is a native of the island of Sumatra in Indonesia.

The Sumatra is a lustrous greenish-black bird with a graceful, long tail, and small comb. These rare and beautiful birds are best when allowed to free range and forage. Hens lay small, white eggs and are non-setters.

SPECKLED SUSSEX

(SHIPPED FEBRUARY - OCTOBER)

The Speckled Sussex was bred and developed in Sussex County, England, over a century ago for market purposes. These delightful birds have a unique feather pattern and color with a rich mahogany base and individual feathers tipped in white and separated from the rest of the feathers by a black bar. This variety combines beauty with utility, and is very nice to raise for showing.

TURKEN (NAKED NECK)

(SHIPPED FEBRUARY - OCTOBER)

This unusual breed gets its name from the lack of feathers on its neck. These unique birds also have less-than-normal feathering around the breast area, under the wings, and around the vent. In spite of this feather shortage, Turkens are a hardy breed and withstand cold weather very well. Our Turkens come in a variety of feather colors and patterns. Hens are excellent brown egg layers and make great mothers to their chicks. Turkens are great foragers and are very calm birds.

WELSUMMER (SHIPPED FEBRUARY – OCTOBER)

The Welsummer is a single comb, clean legged variety that originated in Holland. This breed has a docile temperament, is cold hardy, and is known for its good production of a rich brown egg. The feathering of the males is very different from that of the females. The male's saddle, head and neck feathers are rich golden brown while the back, wing front and wing bows are bright reddish brown. Each feather of the back of the females is reddish brown, stippled with black, and has a distinct lighter shaft.

Whitings

(SHIPPED FEBRUARY - OCTOBER)

Whitings are a relatively new breed — and a McMurray Hatchery exclusive. The breed bears the name of the poultry geneticist, Dr. Tom Whiting, who developed them. With his broad background in poultry genetics, and selective breeding, he developed these two breed to lay a consistently blue or green colored egg. These are not Araucanas, Ameraucanas, "Easter Eggers," or "Olive Eggers," they are their own breed. Order some of each breed and your egg baskets will be filled with wonderfully colored eggs.

WHITING TRUE BLUE

The Whiting True Blues will have varying feather patterns and coloration, which will add color and beauty to your flock. As their name indicates, these birds were developed to lay a consistently blue egg. Hens are excellent layers and not likely to set. Pullets will start out laying medium-sized eggs and progress to large eggs given adequate nutrition. This breed is heat tolerant, has a good disposition, and free ranges well.

Photos courtesy of Jessica Szachury, Rachel Williamson, Jamie Lynn Fletcher & Cassandra Haring

WHITING TRUE GREEN

The Whiting True Green lays a large light green egg. If you're looking for a bird with that can produce large numbers of eggs and in a beautiful and consistent color, add these to your flock. Hens are reddish to chestnut colored, and on the light side. Averaging around three to four pounds, these birds have an astounding feed to egg conversion. Hens are excellent layers and not likely to set. This breed free ranges well.

Wyandottes

Wyandottes are a heavy looking breed, but that is in part due to their wide bodies and thick feathering. They come in a variety of colors and feather patterns, most of which have some form of lacing. Little is known about the origin of this breed, but the Silver Laced was the original variety.

BLUE LACED RED WYANDOTTE • 🖈

(SHIPPED FEBRUARY - FIRST WEEK OF JULY)

One of our most popular breeds, this relatively new variety was developed by crossing the Silver Laced and Golden Laced varieties. The breed's blue gene will color the lacing — the area around the reddish colored feathers — either light blue or dark blue. Therefore, each bird will vary somewhat in appearance. Hens are good brown egg layers and may set. The Blue Laced Red Wyandotte has a great disposition, does well in cold climates, and is an excellent forager.

COLUMBIAN WYANDOTTE

(SHIPPED FEBRUARY - FIRST WEEK IN JULY)

Columbian Wyandottes were first exhibited at the Columbian Exposition in Chicago in 1893, and were named after it. They have the same deep, wellrounded Wyandotte bodies and close set comb. They are medium-sized white birds with black neck, tail, and wing feathers laced in silvery white.

Wyandottes (CONTINUED)

WHITE WYANDOTTE

An all white bird, from their snowy plumage to the clean, outer feathers to the fluff next to their yellow skin. With their rose combs they can stand cold weather very well, and flocks of this variety are excellent for northern climates. The White Wyandottes are a great dual purpose fowl for the production of both meat and eggs.

SILVER LACED WYANDOTTE

(SHIPPED FEBRUARY - OCTOBER)

This is the original Wyandotte, and one of the most beautiful breeds we offer. These birds are silvery-white with each feather laced in a lustrous greenishblack. Cold weather doesn't seem to bother them at all as they keep laying straight through the winter.

Photos courtesy of Cassandra Haring — @cassifaith

See our Murray's Choice Layers Assortment on p. 25

RED SHOULDERED YOKOHAMA

(SHIPPED FEBRUARY - FIRST WEEK IN JULY)

Red Shouldered Yokohamas were first developed in Europe from Japanese breeds brought to Europe by French Missionaries. The males have an impressive long tail and saddle feathers. Females are good layers of light cream colored eggs. The breed tends to be quiet and gentle. One customer has said, "I have ordered from all hatcheries to get birds to the standards. McMurray has by far had the best of the best birds. They are to the standard. Of course not all will show, but I can actually put these with my breeders as good specimens."

Photo courtesy of Jennifer May Bryant.

EXHIBITION NOTE: We cannot quarantee that individual birds will be show quality. We suggest ordering multiple chicks and then selecting the best for show. Special care will need to be taken with any long feathered breeds so that the feathers do not become broken.

Bantam Chicks Available APRIL - AUGUST

Belgian Bearded D'Uccle •

These beautiful birds came to Europe from Japan in the 17th century and can be seen in the paintings of many early Dutch artists. Today they are highly prized by backyard flock owners and poultry enthusiasts for their beauty, tiny size and large personalities. Known for their puffy beards, vulture hocks, heavy leg feathering, and wide-set tails, these little birds are a delight to keep.

MILLE FLEUR D'UCCLE

The Mille Fleur is one of the most colorful and interesting varieties we carry. They really stand out with their reddish-bay feathers tipped in white, muffed faces and booted legs. Their color will change as they age. These tiny birds have a sweet disposition and lay tiny white eggs.

Photos courtesy of Abbie and Cory Watts & Matt VanUtrecht.

MFBS Straight Run Only \$5.75 ea.

Class: Feather Legged Bantam Mature Weight (LB): Male 1.8 / Female 1.5 ALBC Priority: Not Listed Eaa Production: Good Comb Type: Single Feet & Legs: Feathered / Yellow

PORCELAIN D'UCCLE

The Porcelain has many of the same characteristics of the Mille Fleur, except that these birds are a light, pale blueish white. All feathers are tipped in white, making it one of the prettiest chicks at the hatchery. These petite birds lay small white eggs and are gentle and docile.

Photo courtesy of Melinda Rogers. PBBS Straight Run Only \$5.75 ea.

BUFF BRAHMA

This breed is derived from the larger, standard size breed of the same name. Bantam Buff Brahmas are very gentle and easy to handle. Brahmas are very hardy in cold weather, excellent setters, lay and hatch well. They are beautiful golden buff with black tails and laced hackles. Photo courtesy of Angela Vallencourt and Leigh Ann Shiflett.

BBBS Straight Run Only \$5.75 ea.

| Class: Feather Legged Bantam | Mature Weight (LB): Male 2.5 / Female 2.0 | | | |
|---------------------------------|---|--|--|--|
| ALBC Priority: Not Listed | Egg Production: Fair | | | |
| Comb Type: Pea | | | | |
| Feet & Legs: Feathered / Yellow | | | | |

Cochin Bantams

Cochins are the most popular of our feather legged bantams. Cochins are Chinese in origin and are heavily feathered down their legs and toes, making them appear to be much larger than they actually are. These smaller versions of the larger breed are gentle, excellent setters, and require little space making them a perfect choice for families or an urban setting.

| Class: Feather Legged Bantam | Mature Weight (LB): Male 2.0 / Female 1.8 | | | |

BARRED COCHIN

The Barred Cochin has the same barred pattern of a Barred Rock, with defined, alternating dark and light barring running parallel the length of each feather. Photo courtesy of Eric Edwards.

BABS Straight Run Only \$5.75 ea.

MOTTLED COCHIN

The Mottled Cochin has a lustrous, greenish-black base color with many of the feathers randomly tipped in white. This breed really stands out in a flock. Photo courtesy of Abbie/Cory Watts. MCBS Straight Run Only \$5.75 ea.

BLUE COCHIN

The true blue color is perhaps one of the most difficult colors to breed for when it comes to poultry. Our birds are a nice blue, that will vary from a bluish-white to a beautiful black laced dark blue — see p 5 for more information on the color blue.

Photo courtesy of Erica Westmoreland.

BEBS Straight Run Only \$5.75 ea.

PARTRIDGE COCHIN

These pint-sized birds have the classic Partridge coloring. Males' saddle and hackle feathers are a rich, brilliant orange-red over a greenishblack body. Female are a glossy mahogany brown with black penciling. Photo courtesy of Hayden Curtis.

PCBS Straight Run Only \$5.75 ea.

BUFF COCHIN

The Buff variety is very popular and one of the oldest and most established varieties. These birds are a lovely, soft golden buff color throughout.

BCBS Straight Run Only \$5.75 ea.

RED COCHIN

Both male and female Red Cochin Bantams are an even shade of a deep, lustrous, red color. Males have deep red hackle and saddle feathers.

Frizzle Cochin Bantams

Now this is truly a unique bird! Unlike other chickens, the feathers on the Frizzle curve outward and forward giving it the appearance of having walked through a windstorm backwards. Frizzle Cochin Bantams are available in red, black, and white colors and have the other characteristics of the non-frizzle Cochin Bantams.

PLEASE NOTE: The frizzle feathering of these unique birds does not show as baby chicks. Because the frizzle trait does not breed true, approximately one fourth of your baby frizzle chicks will develop normal feathering and the others will be frizzled. Limited quantities available.

Photos courtesy of Leigh Ann Shiflett, Jennifer Bryant, Claudia Hebert & Bryan Hearn.

WHITE FRIZZLE COCHINS WFCS Straight Run Only \$5.75 ea.

BLACK FRIZZLE COCHINS BFCS Straight Run Only \$5.75 ea.

RED FRIZZLE COCHINS RFBS Straight Run Only \$5.75 ea.

Japanese Bantams

Japanese Bantams have plenty of attitude. They carry their tails upward, higher than their head, and wings angle down and back. These popular tiny birds are good layers. Please note, there are no pure short-legged Japanese Bantams. Therefore, some chicks will have medium to long legs.

Photos courtesy of Grace McCain, Indah Erdmann, Amanda Balinski, Kayla Nunes & Klarissa Olverra.

Sebright Bantams

This ornamental breed is one of the oldest genuine Bantam breeds. It is the only breed of chicken that is "hen feathered" — meaning the male has no pointed sex feathers in the hackle, saddle, or tail. This breed is easy to raise, has a nice personality and is a good option for an urban environment.

Photo courtesy of Amber Filan.

SILVER SEBRIGHT

The Silver variety is a small vet stunning bird with its white feathers outlined in

black and bright red rose comb and wattle. Our Sebrights are good layers - laying almost an egg a day each.

SSBS Straight Run Only \$5.75 ea.

Feet & Legs: Clean / Slate, Blue

Class: Rose Comb Clean Legged Bantam

ALBC Priority: Not Listed

Comb Type: Rose

Mature Weight (LB): Male 1.5 / Female 1.5 Egg Production: Good

GOLDEN SEBRIGHT

The Golden variety is much like the Silver variety, except with a golden-bay colored base feather.

Both varieties of Sebrights are in high demand and our birds are a beautiful example of the breed.

GSBS Straight Run Only \$5.75 ea.

PARTRIDGE ROCK BANTAM

These are the some of the showiest of all the Rocks — with the same partridge coloring of their standard size counterparts. Photos courtesy of Susie Jones & Melissa Brodeur. PRBS Straight Run Only \$5.75 ea.

Silkie Bantams

Both China and Japan claim the origin of the Silkie, and historians have traced them back to Marco Polo. Their black skin and feathers — that feel much like hair — make them one of the most unusual varieties. Our Silkies come both bearded and non-bearded, and lay small white eggs. Hens are tremendous setters. Silkies are perfect for families and backyard settings.

Photos courtesy of Grace McCain. Cassandra Haring and Christine La Pointe.

| | | | |

BLACK SILKIE

They are small bundles of all black hair-like feathers with

a mulberry colored comb, face, and wattles. The ear lobes are a light blue turquoise and the skin is dark bluish/black. Like all Silkies, they are great setters of any type of eggs. BSBS Straight Run Only \$5.75 ea.

BLUE SILKIE

Blues have all the qualities of the other silkies but will vary in feather color. Approximately 50% of the baby chicks will be all blue. The other 50% will be black, white, and black/white combinations.

See more about the color blue on page 5.

BXBS Straight Run Only \$5.75 ea.

BUFF SILKIE

The Buff Silkie is a fairly rare variety. These golden buff-colored Silkies have the same black skin and mulberry comb, face and wattles of the othervarieties. Order early as limited numbers of this variety are available. BFBS Straight Run Only \$5.75 ea.

WHITE SILKIE

These soft, pure white Silkies have blueish black skin, mulberry colored comb and wattles, and turquoise earlobes. These docile, sweet birds are great for families. Hens make excellent mothers to young chicks and will even adopt other breeds. WSBS Straight Run Only \$5.75 ea.

WHITE CRESTED BLACK POLISH

This is a small version of the larger variety of the same name. They are solid black with a bright white crest, non-bearded, quite small, and easy to care for — and a Bantam customer favorite. Photos courtesy of Heather Helmer.

BPBS Straight Run Only \$5.75 ea.

RHODE ISLAND RED

These miniature versions of the Rhode Island Red are a deep mahogany color and have the old-fashioned single comb appearance. These docile birds lay small brown eggs and are a great alternative to the larger variety for backyard settings, or where space is limited. Photos courtesy of Melissa Brodeur. RIBS Straight Run Only \$5.75 ea.

JUMBO CORNISH X ROCKS (*)

(SHIPPED FEB. - OCT.) This is our number one best-selling breed and the most remarkable meat producing bird we have ever seen. Their rapid growth and feed efficiency is remarkable. We think our Jumbo Cornish X Rocks are among the finest meat birds in America — and we fill our own freezers with them every year! Males dress at three to four pounds in just six to eight weeks, and females will take about one and a half weeks longer. See page 102 for instructions on feeding these chicks. Not recommended for altitudes above 5000 feet.

| Item # | Sex | 1-5 | 6-15 | 16-24 | 25-50 | 51-99 | 100+ |
|--------|---------|--------|--------|--------|--------|--------|--------|
| CXRP | Female | \$3.25 | \$3.09 | \$2.93 | \$2.76 | \$2.60 | \$2.44 |
| CXRC | Male | \$3.65 | \$3.47 | \$3.29 | \$3.10 | \$2.92 | \$2.74 |
| CXRS | Unsexed | \$3.40 | \$3.23 | \$3.06 | \$2.88 | \$2.71 | \$2.54 |

CORNISH GAME HENS (SHIPPED FEB. - OCT.)

If you have ever admired the Cornish Game Hens for sale in the supermarket, now you can grow them yourself with chicks from the broiler industry's top breeders. Raise these Cornish X Rock females to a 2-2.5 pound live weight for the most delicious chicken — and you grew it yourself!

Cornish Roaster, Cornish Game Hens and Jumbo Cornish X Rocks baby chicks are all similar in appearance.

| Item # | Sex | 1-5 | 6-15 | 16-25 | 26-50 | 51-99 | 100+ |
|--------|--------|--------|--------|--------|--------|--------|--------|
| CGHP | Female | \$3.25 | \$3.09 | \$2.93 | \$2.76 | \$2.60 | \$2.44 |

Seller

CORNISH ROASTER (SHIPPED FEB. – FIRST WEEK OF JUL.)

We have been selling chicks from this outstanding breeding stock for over 25 years. These birds are ideal fryers when butchered young, or as a roaster or capon. These roasters take about two weeks longer to mature than the Jumbo Cornish X Rocks — with all of the same great qualities, but without many of the potential leg problems. Sold as straight run only.

| Item # | Sex | 1-5 | 6-15 | 16-25 | 26-50 | 51-99 | 100+ |
|--------|---------|--------|--------|--------|--------|--------|--------|
| CRRS | Unsexed | \$3.40 | \$3.23 | \$3.06 | \$2.88 | \$2.71 | \$2.54 |

Please Note: Cornish Roaster, Cornish Game Hens, and Jumbo Cornish X Rocks are hybrids, therefore we do not recommend breeding. They will not produce the same high quality in the next generation and due to the extreme rate of growth they will be too large at time of sexual maturity to breed successfully. See page 102 for feeding instructions for these birds.

DON'T FORGET THE BROILER BOOSTER!

Heavy meat breeds have astounding growth rates. Broiler Booster contains vitamins, electrolytes, and biotin, which will help makes them stronger, and help to counteract growth-related issues. See page 87 to order.

WE'VE GOT ALL YOU NEED

McMurray Hatchery offers a variety of resources to help you learn how to raise chickens for meat. Our butchering kits will save you money over buying the individual components you will need separately. Scan this QR code or see the Processing Equipment section in this catalog on page 82 for our large selection.

FREE SHIPPING On All Day-Old Baby Chicks MEAT BIRDS

DELAWARE ENHANCED HERITAGE

(SHIPPED MARCH - SEPTEMBER)

NEW FOR 2020! Our new Delaware Enhanced Heritage is a meatier version of the traditional Delaware, making a true dual-purpose breed. Raise them for eggs and then process for meat when older, or raise them as a pastured breed for meat. Growth for these birds will be similar to the Murray's Big Red Broilers.

| Item # | Sex | 1-5 | 6-15 | 16-24 | 25-50 | 51-99 | 100+ |
|--------|---------|--------|--------|--------|--------|--------|--------|

MURRAY'S GINGER BROILER

(SHIPPED MARCH - SEPTEMBER)

NEW FOR 2020! These golden broilers are a new variety that was developed to have better than medium growth, often with little to no mortality, and fewer leg and health problems. They are high altitude tolerant and an easy-to-raise bird that will do well on pasture.

| Item # | Sex | 1-5 | 6-15 | 16-24 | 25-50 | 51-99 | 100+ |
|--------|---------|--------|--------|--------|--------|--------|--------|

MURRAY'S BIG RED BROILER (SHIPPED FEB. - OCT.)

Murray's Big Red Broiler is an updated version of our old favorite, the Red Ranger. Just like its predecessor, Murray's Big Red is a great pasture bird and excellent forager. If you want a broiler without any of the problems of fast-growing breeds, this is the bird for you. Everyone who raises their own meat birds know they have better a taste than anything you can buy in the store. Take our VP's advice and spatchcock these — a little salt and pepper and bake for the best roasted chicken ever. Photo courtesy of Jake Grzenda — ② @whitehouseonthehill

STARTED PULLETS

Get a jump start on your eggs with our started pullets! These girls are shipped between 15 and 22 weeks of age — most breeds will start laying at 24-28 weeks! Just provide them with 16-18 hours of light (natural or supplemented), complete feed ration and proper care and they will start laying. There is no minimum order, so you can order just a few to fill your coop. Many of these breeds are leaders in egg laying, and others are rare breeds that will make a great addition to your backyard flock. Quantities are limited, so order early to get the best selection. For specific breed descriptions, please see the breed description in the chick section of the catalog.

Ducklings

Ducks are an attractive addition to any barnyard. Ducks are easy to raise, naturally free from disease, and they require little feed once started. Although most ducks are raised for their meat, they do lay well and can provide lots of eggs for baking.

NEW Saxony & Silver Appleyards SEE NEW DUCK BREEDS, PG. 53

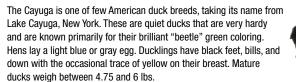

Also called Buff Orpington ducks, this breed originated in the famous Orpington Farms in England — also the home of the well-known Orpington chickens. The Buff drake and hen have the same soft buff coloring with the exception of the drake's sealbrown head. The hens are good layers and not broody. Mature ducks weigh between 5 and 6.25 lbs.

GOLD STAR HYBRID 💮

These ducks were developed for commercial flocks to lay more and larger eggs than the Khaki Campbell, and have a calmer temperament with a higher fertility.

The coloring may vary from the photo here — males will be shades of black, females will be shades of brown. They are sexed by color but will not retain these characteristics in future generations.

handling, heat pack and boxing to ensure they arrive safely.

KHAKI CAMPBELL * * * * * *

Khakis are known for being one of the best general purpose ducks, and they are probably the best layers of all domestic ducks. They have a mature weight of around 4.5 lbs., and their light feathering makes them easy to dress

when processing. Females are seal-brown, and males are the same with touches of darker brown and a resemblance to the drake Mallard. Khaki Campbells are excellent foragers and withstand cool climates very well.

LEG TAPE MUST BE REMOVED UPON RECEIVING YOUR BIRDS. When ordering sexed ducklings, males have leg tape on the right leg, females have leg tape on the left leg. A ratio of one drake to six hens is recommended when breeding.

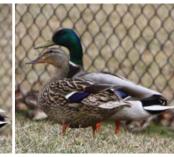

FLYING MALLARD 🛠 🕏 🗭

It's really a treat to see these brightly colored ducks flying about. The color pattern is the same as a Rouen, but these birds are much smaller and their meat has a gamey taste not found in domestic ducks. Mature ducks weigh between 2.25 and 2.5 lbs.

Ducklings

ROUEN *×

These attractive ducks bear the name of the famous French city where they originated. Similar to the wild Mallard in color, males have a lustrous green head and neck, a rich purplish brown chest, and steel gray penciling on the upper body. Females are mahogany brown with fine penciling of greenish black or brown. Mature ducks weigh between 5 and 7.25 lbs.

SAXONY ®

This lightly buff and cream colored breed was developed in Germany in the 1930's. Saxony ducks are excellent dual purpose birds. Hens are buff with creamy white facial stripes, neck ring, and underbody. Drakes have blue-gray head, back, and wing markings, a rich chestnut-burgundy breast, cream underbody and flanks, and white neck ring. Mature ducks weigh between 6.5 and 8.5 lbs.

\$13.33

\$6.71

\$10.02

SILVER APPLEYARD © 🗷 🐨 😨

It is said that the Appleyards are the most flavorful ducks and, although very rare, they are one of the best egg layers among the heavy weight ducks. They are active foragers - similar to the Saxony - with calm temperaments. Mature ducks weigh between 7 and 9 lbs.

SWEDISH

Swedish ducks are known for their black and blue colors, and a white 'bib' that runs from under the bill to halfway down their breast. These ducks also have some white on their wings that creates a very eye-appealing color contrast. Swedish are very hardy ducks and good foragers. Drakes will weigh up to 8 pounds. The hens will weigh up to 7 pounds and will lay mostly white eggs with an occasional blue or gray tinted egg. See page 5 for more information on the genetics of the color "BLUE" in poultry. WELSH HARLEQUIN * * * * *

Welsh Harlequin are a fairly new breed. Developed in Wales, they were brough to the U.S. in the 1960s, and accepted into the American Poultry Association in 2001 in the Light Duck class. Females are excellent layers, good setters, and great mothers to their ducklings. They are calm, inquisitive and excellent foragers. Interestingly, they can be sexed after hatching with 90% accuracy by their bill color — males have darker bills, while lighter bills ending in a dark spot are females. Mature ducks will weigh between 4.5 and 5.5 lbs.

WHITE CRESTED © 🗷

The White Crested duck is a good dual purpose breed. Hens are good layers, and they grow rapidly making a good choice for those who want to raise some for meat production These ducks stand out in a flock with their uniquie crests on their head. Baby ducklings also have large crests on them at hatching. Mature ducks weigh between 6 and 7.25 lbs.

Join Our Homesteader Program CALL 800.456.3280 FOR DETAILS

In recent years, the homesteading trend ballooned. More and more families are looking for ways to live more sustainably and grow their own food. Often, the first step into the homestead lifestyle is planting a garden and adding a flock of chickens. For others it's buying some land, and adding livestock.

Whether you're an urban homesteader, or a small farm operator, adding a productive mix of chickens, ducks and turkeys to your flock will give you an assortment of eggs and meat to feed your family.

| Item # | Number of Birds | Price |
|--------|-----------------|----------|
| QGHS | 16 | \$116.00 |

Goslings

AFRICAN

This breed is not as heavy as the Toulouse or White Embden, but they mature early. African geese have a large black knob on their head and a dark stripe down the back of their neck. They are very dignified looking and attract a great deal of attention.

| Item # | Sex | 1-4 | 5-24 | 25+ | |
|--------|---------|---------|---------|---------|--|
| AFGP | Female | \$25.77 | \$24.27 | \$22.77 | |
| AFGC | Male | \$13.28 | \$12.28 | \$11.28 | |
| AFGS | Unsexed | \$12.70 | \$11.95 | \$11.20 | |
| | | | | | |

BUFF GEESE

Buff geese are very calm and have a wonderful disposition. Their light buff color is also referred to as "fawn" colored. They were developed in the United States, which is unusual as most geese come from outside the country. Young geese will weigh 12-16 pounds, and older geese will weigh several pounds more. Quantities are limited to 5 goslings per customer.

| Item # | Sex | 1-5 |
|--------|---------|---------|
| BFGP | Female | \$35.59 |
| BFGC | Male | \$19.32 |
| BFGS | Unsexed | \$18.74 |

BROWN AND WHITE CHINESE

The Chinese goose is an old breed derived from the wild Asiatic Swan goose. The earliest record of Chinese geese in America is in the correspondence of George Washington, who in 1788 received a pair from Governor Morris. The Chinese goose has a prominent raised knob. White Chinese are the most prolific laying geese, and have been known to lay in the fall or winter. The Brown Chinese is smaller than the White, with identical coloring to the African. Chinese geese are a "talkative" breed of geese great for alerting to the presence of intruders or other strange occurrences.

BROWN CHINESE

| Item # | Sex | 1-4 | 5-24 | 25+ |
|--------|---------|---------|---------|---------|
| BCGP | Female | \$31.26 | \$29.76 | \$22.77 |
| BCGC | Male | \$17.73 | \$16.73 | \$15.73 |
| BCGS | Unsexed | \$17.33 | \$16.58 | \$15.83 |

WHITE CHINESE

| Item # | Sex | 1-4 | 5-24 | 25+ |
|--------|---------|---------|---------|---------|
| WCGP | Female | \$23.26 | \$21.76 | \$20.26 |
| WCGC | Male | \$13.32 | \$12.32 | \$11.32 |
| WCGS | Unsexed | \$12.72 | \$11.97 | \$11.22 |

WHITE **EMBDEN**

White Embden geese originated by the Em River in Germany and were first brought to the U.S. in 1821. They have the same massive appearance as a Toulouse,

| Item # | Sex | 1-4 | 5-24 | 25+ |
|--------|---------|---------|---------|---------|
| WEGP | Female | \$22.28 | \$20.78 | \$19.28 |
| WEGC | Male | \$13.94 | \$12.94 | \$11.94 |
| WEGS | Unsexed | \$12.87 | \$12.12 | \$11.37 |

PILGRIM

The Pilgrim is the only domestic goose breed in which you can distinguish males from females at any age. Day-old males are yellow and light gray with lighter colored bills, females are a deeper gray/green with a darker bill. Adult males are white with a touch of gray on the rump or wings. Females are gray like a Toulouse but often with

white on their head. These calm, quiet geese are excellent parents and foragers. Egg fertility is lower than other breeds — averaging just around 55% over the complete season. Quantities are limited to 5 goslings per customer.

| Item # | Sex | 1-5 |
|--------|---------|---------|
| PGGP | Female | \$38.62 |
| PGGC | Male | \$20.50 |
| PGGS | Unsexed | \$20.40 |

SEBASTOPOL

This unusual breed of geese has frizzled, or spiraled, white feathers. Good specimens will have long curly white feathers on the back and front, nearly touching the ground and smoother neck feathers. Thought to originate in southeastern Europe, they can not fly, are very gentle, make nice pets, lay eggs fairly well, and will reach a size of 10-14 pounds. Quantities limited to 5 goslings per customer.

| Item # | Sex | 1-5 |
|--------|---------|----------|
| SEBP | Female | \$138.96 |
| SEBC | Male | \$75.88 |
| SEBS | Unsexed | \$72.42 |

TUFTED ROMAN

These geese are "tufted" and not "crested." A tuft is much smaller and not as pronounced as a crest. The Tufted Roman is a wonderful goose. It is pure white with a small tuft on the top of its head. They have a gentle temperament, lay well, and are similar in weight (9 to 12 pounds) to their cousins, the Roman goose. Quantities are limited to 5 goslings per customer.

| Item # | Sex | 1-5 |
|--------|---------|---------|
| TRGP | Female | \$34.31 |
| TRGC | Male | \$18.47 |
| TRGS | Unsexed | \$18.15 |

TOULOUSE

Named for the famous city of Toulouse in France, these geese - along with White

Embdens — are the most popular commercial geese sold in America. They produce excellent yields of goose down and all dark meat. The varying shades of gray in the plumage emphasize their

deep, rounded breasts and massive appearance. Fall weights for these geese average 18 to 20 pounds for males, and 12 to 13 pounds for females.

| Item # | Sex | 1-4 | 5-24 | 25+ |
|--------|---------|---------|---------|---------|
| GTGP | Female | \$25.77 | \$24.27 | \$22.77 |

| GTGS | Unsexed | \$14.13 | \$13.38 | \$12.63 |
| | | | | |

WEEDER **GEESE**

You can turn these geese loose in your strawberries, corn, or cotton and let them do the weeding. They will leave your crop and eat the weeds! Our choice as to which geese are used to fill these orders (may include cross-breeds).

| Item # | Sex | 1-4 | 5-24 | 25+ |
|--------|---------|---------|---------|---------|
| WRGS | Unsexed | \$12.17 | \$11.67 | \$11.17 |

Guineas (SHIPPED MAY – SEPTEMBER)

Guinea orders must total 30, 60, 90 or 120 birds to ensure safe delivery

Originally from Africa, Guineas are prized for their all-dark, gamey tasting meat. Newly hatched guineas, called keets, are very active from the start. Mature quineas are active foragers, thriving on bugs, insects — including ticks — and weeds and seeds. Many of our customers report that by adding guineas to their homestead, it has greatly reduced the number of ticks, particularly the deer tick. Guineas also are known to call attention to vistors and other occurences.

PLEASE NOTE: Until 12 weeks of age, different colors of guineas will look similar and be difficult to distinguish. **Guineas are sold as straight run only**. To help guineas get off to a good start, place a few marbles in their water. It will keep them from possible drowning.

| Item # | Variety | 1-29 | 30-59 | 60-89 | 90-120 |

PEAFOWL & GUINEA COMBINATION ASSORTMENT

This beautiful combination includes 28 total birds — 4 peafowl and 20 guineas. Guineas will include our choice of at least 3 different varieties. Upon arrival start the quineas and peafowl separately.

PGBS Peafowl & Guineas - \$288.00

BLUE The most common variety of peafowl. Males: Blue neck/breast; tan shoulders barred with black; green tail with blue spot surrounded with green and bronze. Females: Gray-brown with pale gray-buff belly. PIED Same color pattern as the Blues with irregular white patches throughout the entire body and tail. WHITE All white with lacy tails.

CAMEO Very rare and in high demand. Males: Cameo brown; dark, chocolate brown neck/breast; shades of brown, and darker brown eyes in the tail. Females: Soft medium brown

OATEN Males: Dark, chocolate brown — darker than a Cameo. Females: Pale, tan — lighter than a Cameo. SPALDING Slender body and taller stature than other varieties and a more erect crest. Somewhat rare Males: Emerald green neck/breast: darker shoulders/wings, Females: Dark brown; green neck and breast.

PURPLE Males: Purplish-blue neck; brown belly; tail similar to the Blues; brown and off-white barred shoulder area similar to the Cameo. Females: Soft brown like the Cameo; irridescent purple neck.

BLACK SHOULDER Males: Blue neck/breast; black shoulders/wings; same tail as the Blue. Females: Creamy-white with dark brown-black and buff mottling; dark brown tail

Pheasants (SHIPPED APRIL - JULY)

Please check with the Regulatory Agency in your state that controls wildlife management before placing your order — you may need a permit.

A physical address of the final destination is required for health papers that accompany the birds. This must be provided when placing an order for pheasants. Pheasants are sold as straight run only. Availability varies by breed.

Pheasant orders must total 30, 60, 90 or 120 birds to ensure safe delivery

CHINESE RINGNECK

Brought from China, these beautiful wild birds are delicious to eat and a colorful addition to your yard or farm. Many of our customers turn some loose to see them growing wild around their property.

| Item # | 30 | 60 | 120 |
|--------|----------|----------|----------|
| RIPS | \$105.00 | \$200.40 | \$381.60 |

JUMBO RINGNECK

These beautiful birds are very similar to the Chinese Ringnecks in appearance, only they approximately one pound larger. They are raised primarily for meat production, taxidermy, or ornamental use.

Turkeys

BROAD BREASTED BRONZE (SHIPPED MARCH - JUNE)

These stately lords of the barnyard must be seen to be appreciated. Their metallic sheen changes from copper to bronze to burnished gold as the light moves across them. Four feet in length, six feet from wing tip to wing tip, a full grown tom will weigh in at about 45 pounds. Hens are easily half that.

Straight Run Only. Mature Weight: Tom 45 lbs., Hen 22 lbs.

| Item # | Sex | 1-19 | 20-39 | 40-59 | 60+ |
|--------|---------|---------|---------|--------|--------|
| BRTS | Unsexed | \$10.72 | \$10.24 | \$9.72 | \$9.24 |

STANDARD BRONZE (SHIPPED APRIL - AUGUST)

Before modern commercial breeding created the "Broad Breasted" Bronze, we had the "Standard" Bronze. It is about 3/4 the size of the Broad Breasted but it can breed naturally, eats less and generally avoids potential leg problems sometimes caused by very rapid growth. The delicious flavor in the meat and the feather coloring is the same in both breeds.

Straight Run Only. Mature Weight: Tom 36 lbs., Hen 20 lbs.

| Item # | Sex | 1-19 | 20+ |
|--------|---------|---------|---------|
| SBTS | Unsexed | \$12.80 | \$12.16 |

BOURBON RED (SHIPPED APRIL – AUGUST)

Bourbon Reds is one of the most beautiful varieties. Their very dark, rich, chestnut color is edged in black on many feathers, and their wing tips and the back half of the tail are white, giving them a very striking appearance. They will not grow as large or as fast as the bronze or white turkeys but are good to eat and will be a wonderful addition to the farm.

Straight Run Only. Mature Weight: Tom 33 lbs., Hen 18 lbs.

| Iten | n # | Sex | 1-5 | 6+ |
|------|------|---------|---------|---------|
| B01 | TS . | Unsexed | \$12.80 | \$12.16 |

CHOCOLATE (SHIPPED APRIL – AUGUST)

Very rare, and approximately the same size as the Black Spanish, these birds were common in the Southern U.S. and France before the Civil War. Large number of breeders were lost during the war and never made a come back. These birds have chocolate colored feathers, shanks and feet.

Straight Run Only. Mature Weight: Tom 33 lbs., Hen 18 lbs.

| Item # | Sex | 1-5 | 6+ | |
|--------|---------|---------|---------|--|
| CHTS | Unsexed | \$12.80 | \$12.16 | |

WHITE HOLLAND (SHIPPED APRIL – AUGUST)

White Holland is a very old variety of turkey originally used as a commercial bird in the early part of the 20th century. Today's White Hollands are very rare and kept by very few exhibition breeders.

Straight Run Only. Mature Weight: Tom 36 lbs., Hen 20 lbs.

| Item # | Sex | 1-5 | 6+ |
|--------|---------|---------|---------|
| WHTS | Unsexed | \$12.80 | \$12.16 |

PLEASE NOTE: Raising chickens away from turkeys and game birds is a good preventative measure in controlling Blackhead (Histomonas meleagridis). Blackhead can damage the liver of turkeys and game birds. Cecal worms, a common parasite found in chickens, act as an intermediate host for the Blackhead organism.

RARE TURKEY ASSORTMENT

(SHIPPED APRIL – AUGUST)

This is an assortment of rare turkeys which will contain our choice of at least three varieties in each order of 15 — or four varieties in each order of 20 — from the following list: Black Spanish, Blue Slate, Bourbon Red, Chocolate, Standard Bronze, Midget White, White Holland, Narragansett and Royal Palm.

| Item # | Number of Birds | Price |

NARRAGANSETT (SHIPPED APRIL – AUGUST)

This beautiful Narrangansett descends from a cross between the Eastern Wild Turkey and domestic turkeys in Europe and is named for the Narragansett Bay of Rhode Island. This rare, multicolored, medium-sized breed is primarily black with bands of steel gray with a dull black tail that is penciled with parallel lines of tan, and edged in steel gray. They are known for being calmer than most and are good mothers.

Straight Run Only. Mature Weight: Tom 33 lbs., Hen 18 lbs.

| Item # | Sex | 1-5 | 6+ | |
|--------|---------|---------|---------|--|
| NATS | Unsexed | \$12.80 | \$12.16 | |

ROYAL PALM (SHIPPED APRIL – AUGUST)

This remarkably attractive variety displays some of the nicest colors of all turkeys. These birds are quite small compared to other turkeys. These beautiful birds have a white base color with most feathers banded with a bright metallic black. The Royal Palm is not a common variety and supplies are limited.

Straight Run Only. Mature Weight: Tom 22 lbs., Hen 12 lbs.

BLUE SLATE (SHIPPED APRIL – AUGUST)

Originating in Mexico over two centuries ago, Blue Slates were taken to Europe and then brought to the American Colonies. They were recognized as a standard breed in the U.S. in 1874. They come in three color phases: solid black, solid blue, and blue flecked with black spots. Many times the birds are a combination of each phase coloring. These beautiful birds are of medium size and are quite rare.

Straight Run Only. Mature Weight: Tom 33 lbs., Hen 18 lbs.

|--------|---------|---------|---------|
| BLTS | Unsexed | \$12.80 | \$12.16 |

BLACK SPANISH (SHIPPED APRIL - AUGUST)

These turkeys are solid black with a beautiful greenish luster and no barring. They originated in Europe and are quite hard to find. Blacks will mature and lay at 9 months. They are about the same size as the Bourbon Reds.

Straight Run Only. Mature Weight: Tom 33 lbs., Hen 18 lbs.

| Item # | Sex | 1-5 | 6+ |

| BSTS | Unsexed | \$12.80 | \$12.16 |

GIANT WHITE

(SHIPPED MARCH - JUNE)

These broad breasted turkeys are the most popular. Easy to dress because of their white feathers, they also get the biggest. Our Nicholas strain hens reach 25 pounds and the toms as much as 45 pounds.

Straight Run Only. Mature Weight: Tom 45 lbs.. Hen 25 lbs.

MIDGET WHITE

(SHIPPED APRIL - AUGUST)

The White Midget was developed in Massachusetts in the 1950s for the smaller turkey market. They are shown in poultry shows as Beltsville Whites, however they are a little smaller and not as broad-breasted as the actual Beltsvilles.

Straight Run Only. Mature Weight: Tom 20 lbs., Hen 12 lbs.

Incubators

MINI II ADVANCE (*)

This incubator holds seven chicken eggs and controls both temperature and humidity to ensure consistent and reliable hatches. Features automatic egg turning with autostop two days prior to hatching, countdown to hatch, temperature alarms, and a digital display. Humidity is controlled with a central water reservoir. Operates at low voltage for safety. Eggs not included. 2BA - \$239.99

Holds 12 eggs up to pheasant size. 2B12 - \$19.99

MINI DOME INCUBATOR

This handy little incubator is ideal for school, scouting, 4-H, and other small projects and is a great introduction to hatching. Dome top gives a clear view of the incubation. This small capacity ncubator has a maximum egg capacity of 3 chicken, 4 pheasant, 7 quail, 2 turkey, or 2 duck eggs. Includes small thermometer. Does not include a turner; eggs must be turned by hand. Eggs not 26MBed\$17.95

FULL VIEW INCUBATOR WITH ELECTRONIC **THERMOSTAT**

This popular incubator features a full-view window so you can watch as your eggs hatch. This lightweight, styrofoam incubator weighs just 4 pounds, measures 18"x18"x71/2," and draws 25 watts (110 volt AC). Includes an electronic thermostat and fan to hold a consistent temperature and circulate air flow for more reliable incubation. Taller design allows for larger eggs such as goose. Sold with or without turner. UL/CUL Listed. Eggs not included.

Approximate egg capacity without turner: 70 Chicken, 90 Pheasant or Chukar, 40 Turkey or Duck, or 200 Quail, With turner: 42 Chicken, 120 Quail, and up to 12 Goose.

COOL-LITE EGG CANDLER

Examine the freshness of eggs for consumption, or check incubating eggs to determine whether embryos are developing with the Cool-Lite Egg Candler. This popular hand-held device that includes a 5' electric cord. Bulb included. 5GCLT - \$12.99

CLASSROOM INCUBATOR ® AND BROODER KIT

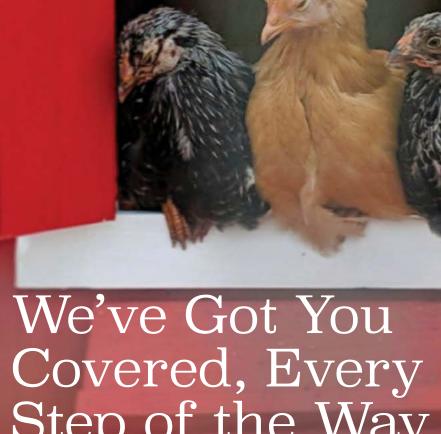

This all-in-one kit includes everything you need to incubate, hatch and brood baby chicks in your classroom — just add eggs! The brooder is designed to be used in a room that is approximately 70 degrees, with no direct drafts, and will hold up to 30 chicks for approximately 10 days. The complete kit includes:

- Full View Picture Window Incubator Includes electronic thermostat, fan and automatic egg turner. (UL/CUL Listed)
- Candling Device Used to check egg development.
- Brooder Newly hatched chicks need warmth, food and water. Use the accompanying brooder to house your baby chicks. The included brooder cage is made of galvanized wire, and includes a removable plastic tray to allow for easy cleaning. The brooder kit includes:
- Brooder Cage measuring 31" W x 17" L x 20" H
- 5 lbs. of Chick Feed, 1 lb. Grit and 4 oz. Quik Chik
- Single Bulb Brooder Lamp with Infra-Red Heat Bulb
- Waterer
- Feeder
- Brooder Thermometer

Please order this kit 2-3 week prior to egg arrival date. Purchases may be made by credit card or purchase order.

POULTRY EQUIPMENT

New to Raising Baby Chicks?

CHECK OUT OUR COMPLETE

Incubators & Box Brooders

HIGH HATCH INCUBATOR

Upgrade or increase your hatching capabilities with our High Hatch Incubator. This unit is a complete hatcher and incubator all in one — with three turning racks and a hatching tray. Use it for the complete process, or add on our High

Hatcher to keep incubation and hatching separate. Features a digital thermostat with LCD display, electronic egg turning control, and an easy-view door. Egg settings are rotated by the three turning trays so you can add eggs each week and set the oldest in the hatching tray. Includes: Digital Command Center thermostat, back-up wafer thermostat, 3 turning racks, plastic hatching tray (no cover), moisture pan with 2 wick pads and instruction booklet. Dimensions: 30.25" front to back, 15.75" wide, 31.75" high. 110 Volt AC 225 Watts. During high volume times (March-May) lead time may be up to 2-3 weeks. Egg trays shown in image are sold separately online. 2MULT - \$759.00

HIGH HATCHER

Combine the High Hatcher with our High Hatch Incubator for the best hatching conditions. Unlike setting incubators, hatchers usually operate at slightly different temperature and humidity settings to obtain optimum hatch. With five hatching drawers it will hold a complete set of eggs from

the High Hatch Incubator. For small chicks such as quail, each hatching tray comes with a tray cover. Features a digital thermostat with LCD display. Hatcher includes: Digital Command Center thermostat, backup wafer thermostat, 5 hatching trays, 4 hatching tray covers, moisture pan with 2 wick pads and instruction booklet. Dimensions: 30.25" front to back, 15.75" wide, 31.75" high. 110 Volt AC 225 Watts. During high volume times (March-May) lead time may be up to 2-3 weeks.

2GMUL - \$720.00

Radiant Heat Brooders

BRINSEA ECOGLOW BROODERS

EcoGlow radiant heat brooders are more like a mother hen. Easily adjust the height of the plate so chicks or ducks can easily get under it for warmth as needed. Far more efficient and safer than a traditional heat bulb, EcoGlow uses just a fraction of the electricity of a typical infrared bulb. Clean, safe, tough and extremely economical, the EcoGlow is available in multiple sizes to accommodate smaller or larger numbers of birds. These units are suitable for brooding chicks, ducklings, and any waterfowl or gamebird chicks.

ECOGLO 20 Up to 15 chicks. 3EB2 - \$105.00 ECOGLO 50 Up to 40 chicks. 3EB6 - \$210.00

UNIVERSAL BOX BROODER

These box brooders are designed to give young birds plenty of heat, fresh air, light, feed and water space, and sanitary conditions in a confined area. Comes with clear plastic panels for easy viewing of the interior, three troughs for either feed or water, a 300-watt heater, and vented plastic side panels to keep out drafts. Each heater is equipped with a socket for a low wattage attraction light bulb to help encourage chicks to move toward the heated area. Includes a thermometer and wafer thermostat, and ½" mesh wire flooring which allows droppings to easily pass through. Removable aluminum drop pans allow for easy cleaning. Side panels adjust to regulate openings for chick size. Approx. capacity: 100 quail 50 Chukar or Pheasants to fourth week; 100 chicks for 2 weeks. Shipped in 2 cartons. Not sufficient for use in a cold, unheated barn. TUV LISTED for use in classroom and laboratory settings. Accessories available at McMurrayHatchery.com.

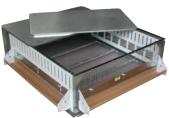

Includes our Universal Box Brooder (pictured above) plus two expanded grow-off pens. Vertical design is ideal for those with limited space. Fits approximately 48 day-old chicks. Comes complete with base stand, heat, and three troughs for feed and water. After four weeks move 24 chicks into each grow-off pen, which also includes the three troughs. Then start another 48 chicks in the brooder. Ships in 8 cartons. 3GSG - \$652.00

Grow-off Pen Only 3GP - \$162.50

Expander Unit – Use between brooder & grow pens to give 14" head room. 3GE - \$58.90

After months of raising your chicks into laying hens, you finally reach the moment when they will start laying. Whether your flock is laying you a rainbow palette of color, or a volume of perfectly uniform brown eggs, you'll need to safely store these beautiful miracles. Whether you want to share them with a friend or neighbor, sell them at your local Farmers' Market, or just keep them for yourself, we have everything you need for cleaning, weighing, and storing or selling your precious dozens.

HAND-MADE EGG BASKETS

Gather your eggs in style with these uniquely hand woven baskets — hand-made by an Amish family in Missouri. Each basket is personally signed and dated by the family member who

made the basket. They are beautiful, sturdy and versatile — and make a great gift, too.

Egg Basket | Item # | Price

| Egg Basket | Item # | Price |
|------------|--------|---------|

Concentrated; mix one cap full of cleanser with 5 gallons of fresh, warm water, 33.9 fl. oz. bottle. 6EWP - \$22.95

Watering Systems

AUTOMATIC WATER BOWLS

This handy watering system is being used by many poultry experts. It provides a limitless supply of fresh water without you being there. The bowl is made from high impact styrene and includes a solid brass valve. Water level in

bowl is maintained once the valve is properly adjusted. This water system operates on a gravity basis; the poultry fountain must be suspended 2-3" above the ground in order for the unit to operate properly. We carry the parts you will need to install your new fount. Bowl and brass valve assembly included. (Operates within 10-70 psi). Bowls and Hook-up Kits sold separately.

The secret to good picking is thorough, accurate scalding. This heavy duty home unit has a 110 Volt heating unit and works well when you have just a few birds to process. Features and adjustable thermostat and easy to clean fiberglass tank. The unit measures 20" x 20" x 20" with an interior depth of 18" and weighs 30 lbs. (NOT recommended for commercial or heavy use.)

Single Heating Element Scalder Requires a 110 Volt Circuits 5SCLD - \$225.00

Double Heating Element Scalder Requires two 110 Volt Circuits 5SCL1 - \$245.00

240 Volt Heating Element Scalder Requires a 240 Volt Circuit 5SCL2 - \$235.00

Large Turkeys

HARD-TO-FIND FREEZER BAGS

It can be difficult to find freezer bags that are large enough to fit Cornish X Rocks and turkeys. These high quality, 2 mil. bags will protect your investment — we use them ourselves. Before you butcher, make sure you have plenty on hand. Not for use in vacuum sealer.

Large Roasters, Small Hen Turkeys Up to 10 lbs. Package of 50

Up to 25 lbs. Package of 50 (18"H x 8"W x 4"D) (30"H x 12"W x 8"D) 5BAG1 - \$14.95 5BAG2 - \$20.95

F7 PI UCKFR

The EZ Plucker is a time-saver —removing feathers off chickens in no time at all. This larger model that features an extra 6" of tub depth and a water hose adapter. This model can handle up to 4 chickens at a time! EZ Plucker replacement fingers available on our website. 5EZPIK - \$695.00

AUTOMATIC POULTRY PICKERS

This picker can be used for chickens, ducks, geese, pheasants, quail, and most game birds. The turning drum and rubber fingers remove feathers from the bird fast and efficiently. Includes features found on commercial pickers, but at a fraction of the cost. Includes a high torque 1/6 hp, 1750 rpm, 110 volt motor, white poly board sides, metal drum with rubber fingers, a metal safety grate on the top, and a metal belt quard on the side. Allow 4 weeks for delivery.

Table Top Model 5STPM - \$350.50

THE FEATHERMAN SCALDER

The Featherman Scalder holds a constant water temperature to give you that perfect scald. Made of stainless steel with a 30,000 BTU propane burner, temperature control within a five degree range, and a 40 gallon capacity to hold four birds at a time for maximum performance. Drain valve and full protective rim are standard features. One year complete warranty. 5F04 - \$1.525.00

FEATHERMAN MANUAL DUNKER AND SHACKLES

Make easy work of dipping poultry to get a thorough, even scald with the dunker and shackles. Easily mounts on the Featherman Scalder, locking into place — no tools required. The dunking arm pivots from left to right, and the heavy, adjustable springs keep poultry to be neutrally balanced, for effortless dunking of up to five birds of all sizes. Made of powder coated, stainless steel.

Dunker Only 5F08 - \$315.00 **Shackles Only** 5F09 - \$85.00

Dunker & Shackles Together 5F07 - \$400.00

FEATHERMAN SET-UP SPECIAL

Receive \$100 off shipping with purchase of a complete set-up. Full Set-Up Special includes a Featherman Pro plucker, Featherman Scalder, manual dunker and shackles, and eight broiler restraining cones (fits most 7-12 lb. birds). 5FS1 - \$3,655.00

THE FEATHERMAN

Simply drop up to 30 pounds of scalded birds into the tub and let the Featherman plucker do the work. In just 20-30 seconds, birds are squeaky clean, with no pin feathers. The Featherman has a 24" diameter tub, stands 33" high with a 10 hp effective strength. The tub and motor housing are constructed of tough, UV-stabilized, food-grade plastic, Standard features include spray ring, feather chute and easyaccess waterproof switch. Fully assembled.

Featherman Pro

For birds 3 to 30 lbs. (119 fingers) 5F01 - \$1,225.00

Featherman Quail

For birds 1 to 30 lbs. (249 fingers) 5F02 - \$1.375.00

RESTRAINING CONES & STAND

The stand allows you to rotate the unit as you place the birds in the cones, making the process very efficient. The stand is easyto-clean powder-coated steel and molded plastic. The cones are stainless steel and spot welded for strength and longevity

8 Broiler Size Cones and Stand 5F10 - \$615.00

4 Turkey Size Cones and Stand

Automatic Coop Door

MURRAY'S COOP DOOR & CONTROLLER

Murray's Coop Controller automatically opens the chicken coop door in the morning and closes it at night. The controller senses the sunrise and sunset to control the door position, and includes a

built-in temperature sensor that will only open the door if

the outside temperature is above 20 degrees (F), protecting your flock on cold winter days. Includes door, door rails, controller, sensor and installation instructions. Sensor available with 12-foot cable length, and should be mounted outside the coop on the west side. Installation videos, as well as a complete manual are available on our website.

Murray's Coop Door and Controller With 12' Sensor Cable MBCD12 - \$220.00

Murray's Coop Controller Only MBCD - \$165.00

COOP CONTROLLER REPLACEMENT PARTS — including previous versions — are available at McMurrayHat

NOTE: Previous versions of Murray's Coop Controller need different replacement parts. When ordering, please indicate what version you have.

Predator Control & Traps

NITE GUARD SOLAR®

Protect your flock at night.

Nite Guard Solar is a safe, natural way to protect your flock, other livestock and gardens from nighttime predators. Developed on the principal that all night animals share the fear of being watched and therefore threatened. Studies have shown the color red to be a universal alarm color for all animals The red flash of Nite Guard Solar mimics the eye of another animal to give the impression of a threat, which in turn helps to ward off nocturnal predators. WORKS BEST WITH FOUR UNITS. Nite Guard Solar features:

- Solar Powered
- Completely Weatherproof
- Mother Earth Friendly
- Safe for People, Pets & Livestock
- · Activates at dusk, flashes all night, every night.
- · Stops Intruders. Appears as a Security Camera. 5NG - \$19.95

Keep Your Run

Predator-Free

HOP POULTRY NET FENCING. PG. 71

TRAP-EM LIVE TRAPS

These traps are designed to trap and keep alive all kinds of animals no matter how guick and cunning they seem to be. They are made of heavy-duty Galfan™ wire —

made to last three times longer than common galvanized wire. After a catch, the sliding rear door provides a safer, easier release process. Available in four different sizes depending on your intentions.

Quik Chik & Broiler Booster

Available only at Murray McMurray Hatchery

Several years ago we recognized a need for a product that day-old poultry could really benefit from and would get them off to a good start. We developed Quik Chik and Broiler Booster. Since then literally thousands of our customers have tried Quik Chik and each year we receive many emails and letters lauding its merits. We thought so much of it ourselves, that we filed for and received our own trademark from the U. S. Government.

QUIK CHIK

Newly hatched chicks/poultry do not need water or food for 2-3 days during shipping because of the yolk they ingest at the time of hatching. However, after their long journey your chicks will need water and food when they arrive. Quik Chik from McMurray Hatchery is a combination of vitamins and electrolytes. Just add it to their drinking water right from the first day. It helps your chicks overcome shipping stress and vitamin shortage. Order some extra to help your chicks during stressful times like molting and extreme heat! One 4 oz. package will handle about 200 chicks for 2 weeks. Meets NOP/USDA National Organic Standards. Verify with your certifying agency before using.

Order Quik Chik to be shipped in the box with your chicks!

SAVE When Shipped With Poultry Order QCC - \$3.95

BROILER BOOSTER

Cornish X Rocks, Roasters, Turkeys, and other heavy breeds of chickens have astounding growth rates, but if managed incorrectly, this rapid growth can sometimes cause health problems. Broiler Booster contains Vitamins A, D, E, B-12, electrolytes, and biotin, which really works to counteract weak legs. When added to your chicks' water, it will increase the birds' overall health and strength, and result in more food on the table. Please consider giving your birds this fine product if you are ordering any of the larger type birds. (4 oz.)

Quik Chik BVS-N-51410

GRO-GEL PLUS

Gro-Gel Plus is the perfect solution to getting your poultry off to a great start. For baby poultry to grow and live efficiently, they must readily start to eat and drink. Gro-Gel Plus provides immediate nutrition, hydration and microorganisms to jump-start their digestive system. Research has shown that it results in substantially improved livability and mature body weights, thus saving you bird loss — and money — in the long run.

Here's how Gro-Gel Plus works: Upon arrival, mix 1/2 cup of water with a packet of Gro-Gel Plus and spread it over their food. Its bright green color will attract chicks to their feed source. The day-old chicks will love it, and upon consumption, they will get water (hydration), proteins and amino acids (the building blocks of most body tissues), carbohydrates and fats (energy), vitamins (gets the digestive and immune system started), and probiotic bacteria (gets the gut bacterial population going). This is a complete supplement for getting them off to a great start.

One packet will be enough for 100 baby chickens or turkey poults, 200 pheasant chicks or ducklings, or 400 baby quail. We highly recommend using Gro-Gel Plus on the first day and then supplementing your flock with either Quik Chik or Broiler Booster for the next several weeks.

FREE SHIPPING 6GEL - \$4.20

SAVE When Shipped With Poultry Order GEL - \$3.90

Gro-Gel Plus Contains The Following Microorganisms:

Lactobacillus Acidophilus:

This is a primary Lactobacillus micro-organism which, according to documented research, implants on the villi of the intestinal tract. The only member of this Lactobacillus genus known to implant, this microorganism produces lactic acid and

the enzyme amylase during its growth phase. These strains were isolated from poultry and therefore are adapted to poultry. They will multiply rapidly in the poultry gut unlike other non-

Lactorbacillus Casei: This primary Lactobacillus eniovs a wide temperature and pH range in its growth phase. This micro-organism complements the growth of L. acidophilus, Lactic acid is produced as well as amylase.

Bifidobacterium Bifidum: This is a very delicate micro-organism found commonly in mother's milk and the intestine of man and animals.

Streptococcus Faecium: A beneficial Streptococcus micro-organism known for its ability to produce lactic acid in pH ranges similar to that of Lactobacillus casei.

Pharmacy

ANTIBIOTICS

Ok to eat eggs during treatment with the antibiotics listed below.

VET RX

This product has been used for over 100 years. It is used in controlling colds, croup, respiratory problems, scaly legs, and eye worm. Many people also use Vet Rx to treat their birds before and after taking them to shows. It is safe for all chickens, ducks, turkeys, geese, and game birds. Easy to follow directions are enclosed with each bottle. 2 ounces. 6VET - \$8.55

BMD SOLUBLE

Used to treat enteritis in chickens, turkeys, quail, chukar, and other game birds. Young birds are most susceptible between 4 and 16 weeks of age. The organism lives in litter, especially in houses where litter has built up or been used by several flocks. Symptoms include: thin birds and dehydrated birds with brown diarrhea. Dosage: 1/8 tsp. per gallon of water 6GST - \$27.25

ACIDIFIED COPPER SULFATE

For Turkeys, Chickens, Hogs and Cattle to provide nutritional supplementation of dietary copper. Directions: Mix 1 lb. of Acidified Copper Sulfate into 256 gallons of water or 1/4 teaspoon per gallon. Poultry should be over 3 weeks of age. This must be administered in glass or plastic waterer. 6ACS - \$6.25

ANTI PICK CARE

BLU-KOTE®

A quick-drying, protective wound dressing to treat ringworm, skin abrasions and surface wounds. Covers the wound with a coating to promote clean, rapid healing. Works well on birds who have been pecked. Has an unpleasant taste to help stop cannibalism. Comes in a 5 oz. spray can. CANNOT be shipped out of the USA. 6BK - \$8.35

HOT PICK

Hot Pick is formulated with all natural ingredients to help reduce feather picking and cannibalism in birds. It contains bitter herbs and spices in a natural base. Comes with a finger spray applicator and should be applied as needed. 4 oz. spray. 6HOT - \$16.95

PINE TAR

Phenol containing pine tar is a natural antimicrobial and germicidal treatment not only for horse hooves but can be used to cover a wound caused by pecking. Not approved to use on animals intended for human consumption. 6IPPT Pint Can \$12.99

See our Pinless Peepers on p. 86

VACCINES VACCINES CANNOT BE RETURNED

Vaccines are shipped in an insulated box with ice packs. A boxing and handling charge of \$25.00 will apply. Up to 4 Vaccines can be put into one box. Vaccines must be delivered within two days, express shipping cost will also apply and can only be shipped Monday - Wednesday. A signature is required upon delivery. Only healthy poultry should be vaccinated. Vaccines Cannot be sent to Hawaii.

AE AND FOWL POX VACCINE

Avian Encephalomyelitis (AE) disease can cause devastating egg production drop in laying hens. In breeders, the AE virus can be passed to offspring resulting in neurological disorders and mortality. When AE causes neurological lesions, it may be described as "Crazy Chick Disease." Fowl Pox disease often results in poor growth and mortality in broilers, commercial layers and breeders. Fowl Pox infection also cause egg production losses in laying hens. Vaccination is applied through the wing web with an enclosed stabber. Comes in 1,000 dose vial. N/A to AZ. 6WPV - \$21.95

LARYNGOTRACHEITIS

This is an acute and highly contagious disease with gasping and spitting of blood. The lining of the windpipe swells up and sometimes the bird chokes to death. Sometimes this disease is contracted at poultry shows. Many fanciers who show their birds are sure to vaccinate for Laryngo. Vaccinate healthy birds 4 weeks of age or older with an eyedropper. 1,000 dose bottle. N/A to AZ, TX, & MI. 6WL - \$11.95

PLEASE NOTE: If you have questions about the safety of using any medication on your birds, please check with your local veterinarian or county extension office. Some medications do not have FDA approval for laying hens or meat birds. Read and follow all directions on product labels.

Pest Control & Cleaning Supplies

PEST CONTROL

DUST PROZAP

A ready-to-use insecticide dust to control horn flies, lice, and aid in the control of face flies on horses, beef, and dairy cattle. It controls lice on swine and northern fowl mites, chicken mites, and lice on or around poultry. 2 lb. canister.

Barden I-Fullty Bust

DIE NO MITE STRIPS

The Permethrin "No Mite Strip" is the most effective, efficient, and economical application of an insecticide to protect your flocks from Northern Fowl Mites. As the birds touch the strip, the insecticide transfers directly from the surface of the strip to the birds. None of the insecticide contaminates the environment and you can achieve up to two years of

continuous protection with these strips. (Usage: 1 strip per 5 birds.)

| Item # | Strips: 5 | 10 | 20 |
|--------|-----------|---------|---------|
| 6N0 | \$6.45 | \$11.60 | \$21.00 |

POULTRY PROTECTOR

Poultry produce more eggs when mites, fleas and lice no longer bite them. Body weight increases when pests are no longer present. Poultry Protector cleans away pests to produce a much larger yield. Effective on cleaning away the eggs, larvae, pupae and adult insects. Weekly use recommended. 16 oz. bottle. 6EPP - \$13.50

MURRAY'S BEST

MOISTURIZER

SCALEX MITE AND LICE SPRAY FOR BIRDS

Convenient spray to treat your birds or cages for mites or lice.

Comes in 1 quart spray bottle.

6SCA - \$18.30

ODOR ELIMINATORS

ODOR ELIMINATOR

Odors in your brooding or breeding house can curtail eating, which can mean poor growth and development and lessen egg production. Odor Eliminator is a 100% natural product that can cause odors to disappear in minutes. Works especially well when dealing with ammonia. Mixes 4 oz. to the gallon and can be sprayed. Can also be added to drinking water as a preventative.

One Quart Bottle 6G0E - \$12.95 One Gallon Bottle 622 - \$51.00

ESSENTRIA

Quick control with residual protection. Multi-purpose: for indoor, outdoor, fogging, turf and ornamental, on animal and mosquito misting applications, golf courses, vegetables, fruit trees (both bearing and non-bearing), pasture and range, nursery, and greenhouse. Contains natural essential plant oils with fresh scent. National Organic Program (NOP) Essentria All Purpose Insecticide Concentrate is NOP compliant which makes it the product of choice for operators everywhere who are treating organic facilities of all types.

Freshen Your Coop With

The Chicken Chick

SWEET COOP AND SPRUCE THE COOP HERBAL FUSION, PG. 73

DISINFECTANTS

TEK-TROL DISINFECTANT

Now you can get hospital-type sanitation in your poultry house, waterers, feeders, and all other equipment at the lowest possible cost. One operation will clean, sanitize, and deodorize it all. When mixed 1/2 ounce per gallon and applied correctly, this amazing product will take all of the worry out of sanitation and result in a healthier poultry flock. To quote the manufacturers of this product, "If it isn't bacteriologically clean, it isn't clean." Comes in 1 gallon bottle. 6TEK - \$38.00

QUAT-A-MONE

Poultry houses and equipment need to be disinfected before chicks use them. This high potency disinfectant, which also deodorizes as it sanitizes, is recommended for general use around the farm or ranch. 1 gallon. 6QUAT - \$24.99

VIROCID CONCENTRATED BROAD SPECTRUM DISINFECTANT

This is the same product we use here at McMurray Hatchery to disinfect everything from hatch baskets to floors. We even use it in footbaths to protect from diseases from the outside world. It comes as a super concentrate and should be mixed with water at a rate of 1:400. A handy pump dispenser that will meter out the correct amount for 3 gallons of water is included. 1 gallon container.

6VIRO - \$49.00

NEW! ALL NATURAL

MURRAY'S BEST CHICKEN SUDS AND CONDITIONER

Get your chickens ready for showing or just clean up your messy, muddy chickens — with Murray's Best Chicken Suds poultry shampoo, and Murray's Best Chicken Conditioner.

All Natural Murray's Best Chicken Suds Get your chickens clean without stripping away the natural oils in the feathers. Made from all natural and organic ingredients. 1MBCS 8 fl. oz. - \$6.95

All Natural Murray's Best Chicken Conditioner

Add to the final rinse to give your birds a little extra shine. This poultry conditioner is made from all natural and organic ingredients.

1MBCC 8 fl. oz. - \$6.95

MURRAY'S SELECT OYSTER SHELL

Murray's Select Oyster Shell is a must-have calcium supplement for egg-laying hens to keep their eggshells strong. Hens with too little calcium will have soft or thin-shelled eggs that are prone to breakage. Eggshells are made of calcium carbonate — the same element in oyster shells. Murray's Select Oyster Shell is the finest freshcrushed oyster shell on the market. It contains higher levels of trace minerals compared to those harvested from older underground oyster shell beds. Offer Murray's Select Oyster Shell as a free choice for your flock along with their grit and feed.

5 lb. Tub 6B0Y5 - \$9.95 10 lb. Tub 6B0Y10 - \$13.95

WORMGUARD PLUS WITH FLAX

WormGuard is an all natural, organic worm preventative made with minerals and three Lactic Acid bacteria: Lactobacillus plantarum. Bifidobacterium species, and Lactobacillus acidophilus. It also contains whole flax seed to provide omega essential fatty acids 3 & 6. Your birds will be healthy, sleek and full of vitality with faster weight gain and greater egg production. Remember what your birds eat ultimately ends up on your table as eggs or meat. WormGuard is

completely safe for you and your birds. Rid them of internal parasites without the use of poisons. Parasites cannot develop an immunity to WormGuard as they can to chemicals. This 100% organic compound has a food grade designation by the FDA, and is EPA registered for indoor and outdoor use. Mix 3 cups per 50 lb. of feed. Includes Diatomaceous Earth. 2 lb. Package. 6WGP - \$19.95

GRUBBLIES™ CHICKEN TREATS

Chickens love grubblies. Grubblies are dried soldier fly larvae grown on a diet of pre-consumer food waste. They are grown right here in the U.S.A. and are the most eco-friendly protein you can feed your chickens. Black soldier fly larvae are a natural food source for your chickens and are rich in calcium and lysine, an important nutrient in egg and feather production. Murray McMurray is proud to work with companies like Grubbly Farms, Inc and their mission to upcycle pre-consumer food and create a sustainable and healthy protein snack for chickens.

6GRUB - \$14.00

MURRAY'S POULTRY GRIT

POULTRY MUST HAVE GRIT. Because chickens and other poultry do not have teeth, they need a hard substance in their crop and gizzard to help break down their feed. The gizzard is a muscular part of a chicken's digestive system that "chews" food by using small stones, or grit, to grind the food. This helps them utilize the vitamins and food value in what they eat.

McMurray Hatchery carries Grit in two sizes: #1 Chick Grit is a smaller size for baby chicks and juvenile birds, and #3 Grit is a larger size for Adult Birds. Chick starter is typically milled finely enough so that baby chicks don't usually need grit unless they're eating something other than starter. But they will need grit once they begin eating treats and other foods, or foraging in the yard.

PLEASE NOTE: We are unable to ship Grit to Canada.

Protect Your Chicks with These Vaccinations

An ounce of prevention is worth a pound of cure. Protect your new flock with these important vaccinations. We recommend vaccinating chicks against Coccidiosis and Marek's disease. As you place your order, check YES on the box asking if you would like your chicks vaccinated.

COCCIDIOSIS VACCINATION

Keeping small poultry flocks healthy and productive requires skilled husbandry practices. We offer a Coccidiosis vaccine to help you protect your flock. Coccidia are common protozoan parasites present in almost all chicken yards that can lay dormant for years until chickens are introduced. Heavy infections of coccidia cause serious disease and can kill many chickens. Chickens of all ages can come down with coccidiosis, but 4-16 week-old chickens are most commonly affected. Wet litter, poor nutrition and concurrent diseases are the most common triggers of Coccidiosis. We offer vaccinations because it is best to vaccinate chicks at 1-3 days of age. A successful vaccination will provide long-lasting immunity. PLEASE READ: To reduce the threat of coccidiosis you should either:

1) Have us vaccinate your birds and not use medicated feed. OR 2) Use a medicated feed containing a coccidiostat. ORGANIC GROWERS: Vaccinations are in compliance with the NOP/USDA organic standards. You should verify with your certifying agency before having us vaccinate your chicks.

COVC - \$0.20

MAREK'S VACCINATION

Marek's is a widespread disease affecting domestic chickens in all sections of the world. It is characterized by lesions affecting the nervous system, organs, and other tissues. Young chickens under 16 weeks of age are most susceptible. There is no treatment for Marek's once the birds are infected. Chicks must be vaccinated as close to the time of hatch as possible for the vaccine to be effective. We vaccinate all of our own breeding stock and highly recommend you do the same. Vaccinating your birds for Marek's is another appropriate step in strong poultry management. Don't take any chances, let us vaccinate your chicks prior to shipment of your order. Don't forget to check YES on vaccinations when

VACC - \$0.20

Why Order McMurray Hatchery Poultry

QUALITY & SATISFACTION

The backbone of our business is based on customer satisfaction and quality. Without both, our company would have been gone years ago. We are the oldest and largest rare breed Hatchery in the United States. Since 1917, we have been supplying top quality poultry and related products nationwide. Your complete satisfaction with our company, and products, is our number one concern.

NPIP CERTIFIED

We participate in the National Poultry Improvement Plan by the U.S. Department of Agriculture. We are classified as U.S. APPROVED: PULLORUM-TYPHOID CLEAN, and we operate under the inspection and control of the lowa Department of Agriculture. These regulatory agencies assure you we have the highest standards in breeding stock, hatchery operation, and disease control.

YOU CAN PICK ONE OF EACH

Many of our customers want to raise just a few chicks of a few varieties. For over 100 years we have remained true to our roots, serving the needs of small backyard flock owners and poultry enthusiasts. When placing your order, you can select as few as one of any breed as long as the total meets the minimum number required for each type of poultry in that order. We do recommend ordering a few of each breed however, to ensure you get a good sample of a variety.

HAND-PACKED WITH CARE

We know you take great care in selecting the breeds for your flock when placing your order with us. We do everything possible to ensure you receive the highest quality poultry. Each box of chicks ordered from us is hand-packed by a team member and shipped to you with care, and our patented, custom-made, reinforced boxes are specially designed to protect them on their journey.

EXTRA CHICKS FOR WARMTH

We do a number of things to assure that your birds arrive healthy and happy. We use a specially designed chick shipping box, adjust ventilation holes, and time our shipping to have access to the most airline flights to name a few. Adding extra males (free of charge) for warmth is also another option for us. If you do not want us to add extra chicks, please order in multiples of the minimums listed above, and let us know you do not want extra chicks when you are ordering.

CHOOSE FEMALES. MALES. OR STRAIGHT RUN

No other hatchery allows you to choose so many different varieties of chickens by sex. Order females (pullets), males (cockerels), or straight run (as hatched). We have professional sexers that come to the hatchery on hatch day, sex the birds, and we guarantee their work. Each breed listing in this catalog, and on our website, indicates how each breed is sold. Please note, we cannot quarantee an equal number of males and females in a straight run order.

SMALL MINIMUM ORDERS

Whether you are just starting a backyard flock, or adding to an existing one, our low minimums are sure to meet your needs. Over a century of experience shipping baby poultry goes into our guidelines on our minimum orders. Baby chicks and other poultry need the warmth of each other, and the cushion, to safely make their journey. In warmer months, our minimum order for baby chicks is 6 on specific breeds (a small order fee is required), other breeds have a 15 minum. Our minimum remains at 25 during colder months to ensure safe delivery. If you are needing less than that minimum, consider our 4-week-old or started pullets which have no minimums.

MINIMUMS FOR EACH TYPE OF POULTRY:

| Chickens 25, 6* After 4/1 | Guineas30 | Peafowl |
|---------------------------|--------------|----------|
| Ducks10, 2 After 4/1 | Partridge35 | Turkeys1 |
| Geese10, 2 After 4/1 | Pheasants 30 | Quail10 |

SUBSTITUTIONS

Occasionally we will have breeds which did not hatch as well as expected. When this happens, we would like to substitute extra chicks, of equal or greater value, of breeds similar to what you had ordered. If you indicate no substitutions, we will either delay your order or ship it minus those birds and refund you. Many of our customers prefer to have the original total number of chicks they ordered rather than a refund. If you phone in your order we will ask you about substitutions. If you mail your order, please indicate your substitution preference on the order blank.

OUR GUARANTEE

POULTRY 48-HOUR LIVE ARRIVAL AND LIVABILITY

WE GUARANTEE to ship birds that are healthy and true to variety. We will provide clear and reliable information regarding the proper care of baby poultry. We will either refund your money, replace your birds, or credit your account, one time, any bird that has been properly cared for but has died within 48 hours after time of arrival. Please contact us within 48 hours, with any and all of your losses, should they occur.

OUR SHARED RESPONSIBILITY between you, the poultry buyer, and us, the supplier, is important to understand because we are dealing with living birds, some will occasionally fail despite our mutual best efforts.

OUR JOB is to provide vigorous, healthy birds and to get them to you in top shape. We have been doing this since 1917 and our longevity within the industry speaks for our ability to do our part successfully. For a full guarantee report to us within 48 hours after arrival, any birds that may have died during this period. Reports must be made by calling our Customer Service department at 800.456.3280.

YOUR JOB is to start the birds promptly upon arrival following to the letter each prescribed need of baby poultry as spelled out on page 102 of this catalog. Follow this successful starting method to assure your baby poultry the opportunity to grow to maturity and satisfy you and your family for years to come. Please follow "Care of Baby Poultry" to the letter and you should have no problems raising your birds. If our birds get the prescribed care and do not live, it is our responsibility and we will make good. But if they arrive in good health and are lost to neglect, that is your responsibility. While we will certainly share your disappointment, we cannot share your loss.

We promise to do our job to the highest standards we know and count on you to do the same.

SEXING

We guarantee 90% accuracy on all sexed poultry.

For any of the above situations, we can do one of the following:

- 1. Refund your money.
- 2. Credit your account to be used on anything we sell at any time.
- Replace your loss. Your new order must meet the minimum number of birds required for safe shipping.

MERCHANDISE

If you buy any item from us that does not meet your specifications, please return it to us for a full refund or credit. Vaccines and some other health care items and some processing equipment cannot be returned. See page 106 of this catalog for return policy. AT NO TIME WILL OUR GUARANTEE EXCEED THE ORIGINAL PURCHASE PRICE.

* On specific breeds only. A small order fee is required. See page 2 or call 800.456.3280 for more information.

GETTING STARTED

Caring for Baby Poultry

Getting Started with Baby Chicks, Turkeys, Ducks, Geese, Guineas, Pheasants, and Partridge

Your new baby poultry will arrive two to three days after they ship. Baby chicks do not need food or water for those few days because they ingest the yolk of the egg as they hatch. However, when they arrive they will need water, food, and a warm brooder. A brooder is a confined space that is free from drafts. Baby poultry will need a brooder for approximately four weeks until they are feathered out and can regulate their own temperature. To help you get your chicks off to a good start, this page includes some important information to keep in mind as you prepare for the arrival of your poultry. Please read this information carefully. If you have questions, contact our Customer Service department at 800.456.3280.

5 BASICS TO CARING FOR BABY POULTRY

- 1. FEED: Use a commercial chick starter (page 90) for the first 8 weeks. On the first day, cover the litter with newspaper and spread some feed on the papers and have your feeders full also. This will allow the new birds to find the feed. Use a 2-foot feeder (page 80) for each 25 chicks. After the first day, remove the papers from the starting area. Please refer to the next page for feed protein levels for the type of poultry you are ordering.
- 2. WATER: You will need a 1-gallon chick waterer (page 78) for each 50 birds. Your birds will be thirsty when you get them. DIP THE BEAK OF EACH CHICK IN THE WATER BEFORE YOU TURN IT LOOSE IN THE BROODER. For best results, have either Quik Chik or Broiler Booster (page 87) in the water. A taste of water right away helps them to find more water soon. Most baby bird loss is caused because the bird doesn't start to eat or drink. Never let your birds run out of water. For the first 2 days, you can add 3 tablespoons of table sugar to each quart of water for extra energy if needed.
- 3. HEAT: Baby poultry need a brooder where the temperature is 90 to 95 degrees for the first week. Reduce the temperature by 5 degrees per week, until you get to 70 degrees. By then they be feathered out and shouldn't need any more heat. A good source of heat is a brooder lamp (page 69), with a 250-watt heat bulb, hung 18" above the brooder floor. Red bulbs are preferred as white light may cause picking. The temperature directly under the bulb may be higher than 90 degrees, but the birds will adjust themselves to the area they like. Use one bulb for each 50 chicks in cold weather. Use 1 bulb for each 100 chicks in warm weather
- 4. LIGHT: If you use a heat bulb, this will also serve as the light you need.
 If not, your birds will need light. Use a 75-watt bulb on dark days. A small light at night approx. 15 watts can be used at night to prevent piling.
- 5. SPACE: Provide an area 1/2 square foot per bird at the start. Use a draft shield or brooder guard (page 70) is a circle of cardboard about 12 inches high around the birds which helps cut down drafts. For 50 chicks, make the circle about 5-6 feet across; or 7-8 feet across for 100 birds.

OTHER IMPORTANT MATTERS

- LITTER: Wood shavings, rice hulls, or ground cobs make good litter. Do not use cedar chips, sawdust (It is too small and the birds may eat it instead of their food), or treated wood chips. Sand, straw, or dirt will also work but are not as good as the others. Put the litter all over the floor at least 1 inch thick. Keep it covered for the first day with newspapers to keep the chicks from eating the litter instead of the feed. To avoid possible leg problems, remove the papers after the first day for heavy breeds and meat birds and after the third day for lighter breeds.
- GRIT: POULTRY MUST HAVE GRIT. Poultry do not have teeth, and need
 grit in order to break down food in their crop and gullet. Starting on the 3rd
 day, sprinkle Chick Grit (#1 size, page 92) on the feed daily as if you were
 salting your food. Avoid putting too much at any one time as the birds may
 fill up on it instead of the feed.

PICKING: Baby birds will often pick each other if they are too hot, too
crowded, bored, or without fresh air. Bright light can also cause them to
pick, and sometimes they pick for no apparent reason. To stop it, try giving
them fresh, green, grass clippings a few times a day and darken the room.
Treat injured birds using an anti-pick product on the injured area until
healed. If necessary, separate the injured or the aggressive bird.

SPECIAL SITUATIONS AFTER THE CHICKS ARRIVE

- IF THE BIRDS HAD A HARD TRIP: Instead of using the standard feed and water suggestions listed, try this: Put 6 more tablespoons of sugar in each gallon of water. Then mix some of this extra sweet water with some of your feed to make a soupy mix. Give your birds this special feed and water mix for 3 to 4 days to get them over the effects of shipping.
- REAR END "PASTING UP": Sometimes the stress of shipping causes
 the manure to stick to the back of the bird. It is important to remove this
 daily. Using a cloth and warm water, gently soak and loosen the dried
 manure from the area being careful to not pull out the down. This should
 disappear in a few days as the bird starts to grow.
- CORNISH X ROCKS & BARBECUE SPECIAL: Start these birds on a broiler starter. The higher protein has been known to help avoid leg problems. We recommend to start limit feeding at around 12 days of age. Fill the feeders each day, and let it run out in the late afternoon. Research has shown the birds will grow just a fraction slower, but have considerably less problems, by not feeding them continuously. Also add extra vitamins from the start. Add Broiler Booster (page 87) to their water from start to finish. Although management, environment, and feed quality will affect the growth rates, Cornish Game Hens should be ready to butcher by 4 weeks. Cornish X Rock cockerels should have a dressed weight of 3-4 pounds in 6-8 weeks. Pullets and Cornish Roasters will take 1-2 weeks longer. Under good conditions birds will gain 0.5-1 pound per week after 6-7 weeks. If you let these birds continue to grow they can experience leg and heart problems.

AFTER FOUR WEEKS:

- SPACE: Increase floor area to 0.75 sq. ft. per bird.
- **FEEDERS:** Increase feeders to provide 2.5-3 inches of space per bird.
- WATERERS: Increase waterers to one 5-gallon fount per 100 birds.
- GRIT: Make sure grit hopper is filled with the proper sized grit.
 Check with your feed man.
- ROOSTS: Install roosts at the back of the brooder area.
 Allow 4 inches per bird with roost poles 6 inches apart.
- FRESH AIR: Open windows in daytime, and leave only partly open at night — weather permitting.
- RAISE WATER FOUNTS: Prevent water puddles around founts by placing founts on low platforms.
- GET OUTSIDE: Birds can range outside on warm, sunny days if a clean, safe area is available.

QUICK REFERENCE FOR STARTING BABY POULTRY

| LITTER | Commercial | Commercial | Commercial | Commercial | Commercial | Commercial |

CARING FOR DUCKS & GEESE

- 1. FEED: Feed starter crumbles up to four weeks of age. Grower pellets are preferred from that point on. Layer pellets can be introduced gradually at their first egg. Mash should not be fed at any time unless it is moistened at each feeding, and care should be taken to avoid spoilage. Whole and cracked grains can be used to supplement the pellets at maturity. Green grass and vegetable trimmings can be given at any time.
- 2. WATER: Ducklings should have access to drinking water at all times but not enough for them to walk or swim in. Since they have been hatched in an incubator, they do not have their mother's protective oil on their down, therefore they can be easily chilled if allowed to be in water. Access to swimming water can be given when full feathered at approximately two months of age.
- PLEASE NOTE: Leg bands that identify sex of birds SHOULD BE REMOVED upon arrival.

- 3. HEAT: The first week they will need access to areas heated to 90°. This can be reduced 5° per week. For small numbers, a heat lamp suspended 18" above the bedding is fine. Heating may take daily adjustments. If they are huddled or climbing on one another, increase the temperature. If they move away from their heat source, reduce the temperature. Take care to protect them from all drafts.
- 4. HEALTH: Keep the bedding as dry as possible (wood shavings are the best). Do not use cedar chips, sawdust, or treated wood chips for bedding. Once your ducklings or goslings are one month, old allow them room to exercise and play outdoors during the day if possible. Also protect them from dogs, cats and other predators. You should have few health problems if you follow all the above instructions. If you do have any problems, try adding Terramycin to their diet.

Practicing Good Biosecurity

At McMurray Hatchery we have very stringent biosecurity procedures, vaccination program, and testing to ensure you receive healthy chicks. We participate in the USDA National Poultry Improvement Plan (NPIP), are certified *Pullorum-Typhoid Clean*, *Al Clean* and *Salmonella Monitored*. As participants in these programs, we follow a very strict vaccination, biosecurity, and testing protocol. We test all of our flocks monthly for Al and Salmonella. You can help keep your flock healthy by reading and following the Biosecurity guidelines recommended by the United State Department of Agriculture below.

TIPS TO PREVENT POULTRY DISEASE

1. KEEP YOUR DISTANCE.

Restrict access to your property and your birds. Consider fencing off the area where your birds are to form a barrier between "clean" and "dirty" areas. The dean area is the immediate area surrounding your birds, and the dirty or buffer area must be considered to be infected with germs, even if the birds appear healthy and disease free.

Allow only people who take care of your birds to come into contact with them. Your caretakers should not attend bird shows or other events where birds are present. If visitors to your property want to see your birds, be sure they wash up first and clean their shoes. Better vet, keep clean boots for visitors to wear, If your visitors have birds of their own, do not let them near your birds at all.

Game birds and migratory waterfowl should not have contact with your flock because they can carry germs and diseases. If your birds are outdoors, try to keep them in a screened area.

2. KEEP IT CLEAN.

You wouldn't think of tracking dirt and disease into your house, where it could infect your family. Don't do that to your birds either! Germs can be picked up on shoes and clothing and moved from one area to another. To keep your birds germ-free, keep a pair of shoes and a set of clothes to wear only around your birds. Many people keep these clean clothes in a covered pail at the entrance to their bird area. Or, clean and disinfect your shoes and launder your clothes before you check on or work with your birds.

Scrubbing your shoes with a long-handled scrub brush and disinfectant will remove droppings, mud, or debris. Clothes should be washed in a washing machine with laundry detergent.

Wash your hands thoroughly with soap, water, and a disinfectant before entering your bird area.

Keep cages, food, and water clean on a daily basis. Clean and disinfect equipment that comes in contact with your birds or their droppings. That includes tools such as feed scoops, shovels, rakes, and brooms. All manure must be removed before disinfectant can work, so clean surfaces with soap and water first. Properly dispose of dead birds by burial or incineration or take them to a landfill. Check on local ordinances for acceptable disposal methods.

3. DON'T HAUL DISEASE HOME.

Car and truck tires, poultry cages, and equipment can all harbor germs. When traveling to a location where other birds are present, or even to the feed store, be sure to clean and disinfect these items before return to your property.

Taking some of your birds to a fair or exhibition? Keep those birds separated from the rest of your flock and watch them for at least 2 weeks after the event to ensure that they didn't pick up a disease.

4. DON'T BORROW DISEASE FROM YOUR NEIGHBOR.

Do not share birds, lawn and garden equipment, tools, or poultry supplies with your neighbors or other bird owners. If you do bring these items home, clean and disinfect them before they reach your property. And remember to clean and disinfect borrowed items before returning them. Never share items such as wooden pallets or cardboard egg cartons because they are porous and cannot be adequately cleaned and disinfected.

5. KNOW THE WARNING SIGNS OF INFECTIOUS BIRD DISEASES.

Many bird diseases can be difficult to diagnose. The list below includes some of the things to look for that signal something might be wrong with your birds. Early detection of signs is very important to prevent the spread of disease.

- Sudden death
- Diarrhea
- Decreased or complete loss of egg production; soft-shelled, misshapen eggs
- Sneezing, gasping for air, nasal discharge, coughing
- Lack of energy and appetite
- Swelling of tissues around eves and in neck
- Purple discoloration of the wattles, combs, and legs
- · Depression, muscular tremors, drooping wings, twisting of head and neck, lack of coordination, complete paralysis

IMPORTANT FACTS ABOUT AVIAN INFLUENZA (THE BIRD FLU)

Avian Influenza (also known as "bird flu") is an ongoing concern. We share the following as a public service to keep our customers better informed with suggestions on ways to help protect your flocks.

PROTECTING YOUR FLOCK

The best way to protect your flock is to follow strict bio-security procedures:

- · Protect your flock from coming into contact with wild birds. A major vector for the introduction of Avian Influenza is migratory birds.
- Use foot-baths with appropriate disinfectants to clean footwear when moving from an area where wild birds might be present, to the areas where your flocks are housed.
- For a complete list read "Tips to Prevent Poultry Disease" online at https://l.mcmh.biz/USDA-Avian-Flu-Brochure

AVIAN INFLUENZA FACTS

- Avian Influenza H5N2 and H5N8, that has been reported in the U.S., has only affected birds, NOT HUMANS.
- The USDA has not approved a vaccine for use in the USA.
- You can NOT get avian influenza from properly handled cooked food. Microorganisms of all kinds are destroyed when the product reaches an internal temperature of 160°F.
- For more current information please visit the USDA Avian Health website at https://l.mcmh.biz/usda-avian-health
- For more information on Avian Influenza in your area, contact your local veterinarian or Extension Office.

ORDERING INFORMATION ORDERING INFORMATION

2020 Hatching Season

SHIPPING BABY POULTRY, FROM OUR HATCHERY TO YOU

Within hours after hatching, our team carefully hand-packs your order. Each order of baby chicks or poultry is hand-packed by one of our team members, placed in one of our custom shipping boxes, and vaccinated as ordered. Each box contains bedding, some Gro-Gel (page 87), and heat packs when needed

We then load your order on one of our trucks and take it to the airport for immediate shipping. All orders are shipped Priority Mail through the U.S. Post Office — most travel by air. Your order should reach your post office within 48 hours — don't worry if it takes a little longer, prior to hatching chicks draw in the yolk sac which provides them with the nutrition they need for three days or more. You will receive a notification with tracking information when your order's shipping label has been created. When your order arrives at your post office, they will contact you for pick up. Your baby birds will be less than 72 hours old when they arrive. See page 102 for information on caring for your birds.

PLEASE NOTE: Be sure to provide your email address so we can send your tracking information, and you phone number so your post office can call you. If you prefer delivery to another location, please call our Customer Service department to inquire about other arrangements. Many people ask us if they can pick up their order at a nearby airport. Sorry, that is not possible. If you have questions or issues with your order, please call our Customer Service department at 800.456.3280.

2020 HATCHING SEASON

| Chickens February – October |

| Turkeys April – August |

MERCHANDISE (NON-LIVE PRODUCTS)

ORDER DELIVERY TIME

We try to process all orders the day after payment is received. We ship all orders the fastest way possible, but please allow 2-3 weeks for delivery.

DROP-SHIPPED ITEMS

Some of the products we sell are shipped directly from the manufacturer. Please allow additional delivery time for these items. Returns on dropshipped items may be subject to a restocking fee.

BACKORDER POLICY

We go to great expense and effort to keep our shelves stocked to bring you the fastest service we can provide. However, we reserve the right to backorder any merchandise that may not be in stock. We will notify you when the order is placed, and within 45 days if the item is still on backorder.

CATALOG PRICING

While we have taken every precaution to ensure accurate catalog prices, we cannot guarantee the catalog to be free of pricing and description errors. Prices are subject to change without notice. Merchandise prices in this catalog supersede all prior prices.

MERCHANDISE RETURNS

Prior approval is required before merchandise can be returned. Call 800.456.3280, or write. for approval. We accept merchandise for refund or exchange as long as it is in its original packaging, has all the appropriate literature, has not been used, and is in resalable condition. All returns may be subject to a handling and restocking fee of 10% of the original cost of the item. Merchandise that is drop-shipped from the factory may be subject to additional or different terms set by the individual manufacturer. Refunds will not be issued until the returned item has arrived at the Hatchery.

PLEASE NOTE THE FOLLOWING:

- · Large or heavy items require additional shipping charges. Please call 800.456.3280 for a shipping quote.
- Orders placed after 11:00 AM (Central) will ship the following business day.
- Alaska, Hawaii, US Territories and Canada: allow 3-4 additional business days for delivery.
- Business days do not include weekends
- We reserve the right to add a Fuel Surcharge to the Shipping and Handling charges.
- · Website orders must be paid via credit card

CANADIAN CUSTOMERS

To receive day old baby chickens, ducks, and geese only (other poultry is not available to our Canadian customers) from Murray McMurray Hatchery please follow these instructions:

- 1. When you place your order, give us your regular Canadian mailing address.
- 2. We cannot ship live poultry directly into **Canada.** We will ship your order to the post office in the U.S. city where you plan to pick up your order. You will need to provide us with the address and zip code of that location. The label on the poultry boxes will be your name and the address of the post office in the U.S. city you have chosen. You will be notified of the day you can expect to receive your chicks.
- 3. Contact the post office where you plan to pick up your order to ensure they will accept your shipment of live birds. You may be required to purchase a P.O. Box.
- 4. **Poultry Health Papers** are required at Canada Border Crossing Inspection Stations for ALL live day old poultry taken into Canada. We will apply to the State of Iowa to obtain health papers for you for an additional (non-refundable) charge of \$75. You must place your order a minimum of two weeks prior to the ship date you require. We will have to re-apply for health papers if you change arrival date, and an additional \$75 charge will apply. Each type of poultry (i.e. chickens or waterfowl) will
- be shipped in separate shipments, and each shipment requires health papers and a \$75 fee.
- 5. Please check in advance with your Canada Border Crossing Inspection Station to see if they are prepared to inspect and admit poultry.

We cannot ship, nor can you carry, into Canada: Proso, Grit, Quail, Turkeys, Pheasants, Juvenile Birds, Adult Birds, Hatching Eggs, and Vaccines.

All sales and shipping cost are in U.S. Dollars.

All orders must be prepaid in U.S. funds. No C.O.D. orders. Master Card, Visa, American Express, and Discover are accepted. All phone orders must be paid by credit card.

P.O. Box 458, Webster City, IA 50595

HOURS OF OPERATION

| PHONE HOURS | MONDAY – FRIDAY |
|-----------------|--------------------|
| January - June | 8:00 a.m 5:00 p.m. |
| JULY - DECEMBER | 8:30 a.m 4:00 p.m. |

We will be closed for the following holidays: New Year's, Memorial Day, 4th of July, Labor Day, Thanksgiving, and Christmas. Our offices will be closed the last three weeks of December. Orders may be placed on our website during these times, but we will not be filling orders or shipping.

HOW TO ORDER

Orders can be place online or by phone, mail or fax. Please note that we are an online store only. and do not have a store location for purchases. All orders must be paid in full prior to shipping. We will not ship orders C.O.D.

MasterCard, VISA, Discover, American Express, PayPal (online only), and money orders are accepted. We reserve the right to cancel your order if payment is declined.

FOREIGN CUSTOMERS: Sorry, we only ship to U.S. Post Offices.

ORDER ONLINE 24 HOURS A DAY McMurrayHatchery.com

Visit our website for up-to-date availability information on all breeds and to place an order. Credit card and PayPal payments accepted.

ORDER BY PHONE TOLL-FREE 800.456.3280

If you need assistance placing your order, or need more information, call our Customer Service department and we will be happy help. All phone orders must be paid by credit card. If your credit card is declined, we reserve the right to cancel your order. For faster service, use MasterCard, VISA, Discover, American Express, and money orders accepted. We reserve the right to cancel your order if payment is declined.

ORDER BY MAIL OR FAX

To order by mail or fax, please complete the order form on this page. Orders sent by mail must be paid in full by check, money order, or credit card. For greater security, we suggest placing credit card orders on the web site or over the phone. Checks must clear your bank prior to shipment of vour order. Please allow 3 weeks for your check to clear. A \$30 fee will be applied for any check returned for insufficient funds. We do not accept post-dated checks. Send completed order forms and payment to: McMurray Hatchery, P.O. Box 458 Webster City, IA 50595. Fax orders to 515.832.2213.

Free Mystery Chick

Order your day-old baby chicks now and get a Free Mystery Chick. For years we have sent out an extra chick with every order. It's exciting to receive one and see what breed you get — crested varieties, speckled beauties, blue chicks, feather-footed fancies, or rare exotics. With over 100 breeds you never know what you'll get! Order Now And Get One Of These Chicks Added Free To Your Regular Order.

Please note that our Free Mystery Chicks are likely to be males. We are not able to keep a record of the kind included. Offer valid with baby chicken orders only.

NEW Quick Icons to Help You Select the Right Breed As you look through this catalog and select which breeds you want to order, look for the quick and easy icons on each breed of baby chicks and Bantam chicks to help you select the breed that fits your needs. Want a breed specifically for egg color? The egg icons quickly identify the egg color for that breed. Live in a warm or cold climate? The sun and snowflake icons will show you what breeds are best for extreme temperatures. See a full list of icons and their meanings on page 2 of this catalog.
